

TWENTY LOOTERS ARE CAUGHT BY MARINES FROM U. S. CRUISER

MEIGG'S WHARF THEIR ROOST

SAN FRANCISCO, May 4.—A detachment of marines from the United States cruiser Chicago captured twenty young men at Meigg's Wharf this morning, with a large quantity of loot in their possession.

The loot consisted principally of copper, copper wire and other metals which they gathered from the surrounding districts.

FOR THE CHAIN GANG

The men are now under guard and may be forced to work in one of the chain gangs which are now being established. The men had apparently formed an organization to gather the material, for which junk men are offering good prices. Their headquarters were at Meigg's Wharf, and they also made that their sleeping quarters.

One man was detailed to do the cooking for the gang, while several others were sent out to forage for food.

The rest made it their business to gather junk, and find dealers who were willing to pay for it.

THIEF IS CAUGHT

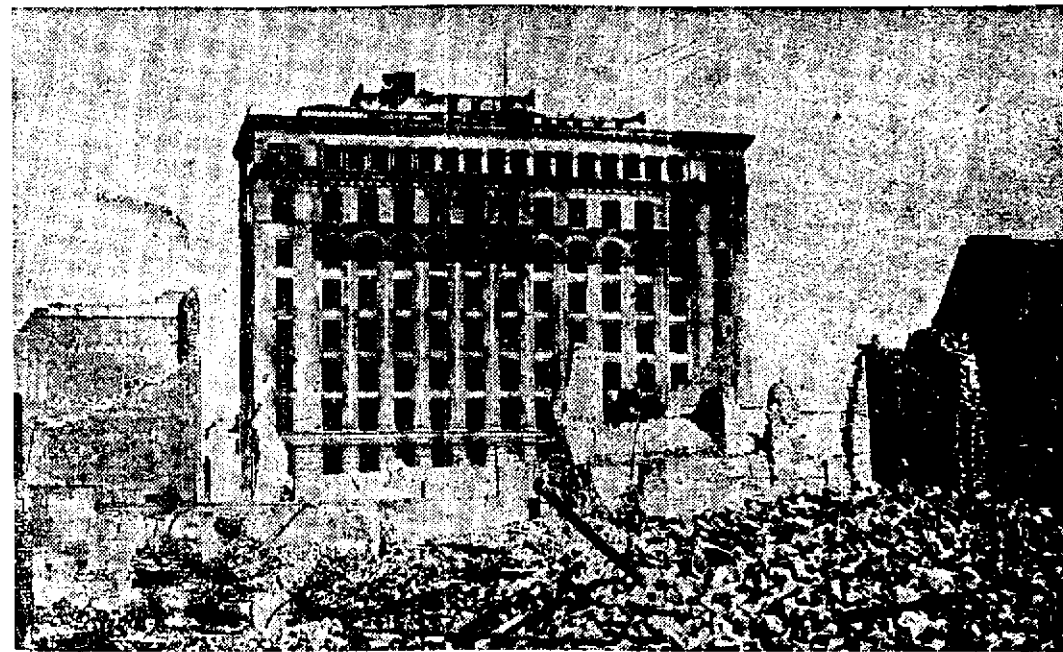

The marines also came upon a man who had broken into the cannery at Bay and Powell streets.

He had in his possession a large copper vat valued at more than \$100.

When he saw the detachment of marines coming he tried to make his escape by running and refused to stop at the command of "halt."

One of the marines brought his gun to his shoulder and was about to fire when the looter stumbled and fell. He was locked up.

The Mills Building, corner Bush and Montgomery streets, San Francisco, damaged by earthquake and fire.

OPEN FOR BUSINESS

SAN FRANCISCO, May 4.—In every section of the wholesale district and along either side of Market street there was in evidence this morning an increasing degree of activity. The number of men and teams engaged in hauling away debris had been greatly increased. Hundreds of signs were put to work cleaning brick and before the hour of noon lumber for floors of several large new buildings designed for temporary use were in place. Placards erected in many places throughout the ruined district announced that firms intend resuming business within the next two weeks. Teams that have been for several days past occupied in the transportation of household effects to the ferries are now hauling lumber for new buildings. Within a day or two such buildings as the St. Francis Hotel and the Flood building will be swept clear of ashes and ready for reconstruction.

The new Shreve building, corner Post street and Grant avenue, San Francisco.

ORDERS FOR MERCHANTS

SAN FRANCISCO, May 4.—"To Company Commanders:—

All restrictions to the resumption of activities here usually imposed by complicated governmental institutions have been withdrawn and the following order was issued by Chief of Police Dinan this morning:

"Office of the Chief of Police.
"San Francisco, May 4, 1906.

"The following order has been issued by the Mayor, a copy of which is transmitted herewith:

"You will instruct the officers under your command to see that the conditions named are strictly complied with.

"Any business except the saloon business may be resumed without a permit.

"The Mayor has granted temporary permits to lay tracks on the streets. Such permits specify in each case particular street, or streets upon which tracks may be laid. Police officers will see that no tracks are laid upon any street unless the Mayor has granted a permit to lay tracks on such street.

"Temporary one-story structures of wood or corrugated iron may be erected without a permit. Chimneys and roofs may be repaired without a permit. No other improvement or repairs may be made without a permit from the Board of Public Works.

"No fires shall be made in any building without a permit from the Restoration Building Committee. In every case where a fire is maintained in a building police officers will demand a production of such permits properly signed by J. A. Dineen, Chairman of the Restoration Building Committee; unless such permit is produced his fire must be extinguished, and the matter reported in writing to the company commander.

"J. D. DINAN,
"Chief of Police."

This issuance of such an order was seen to be a necessity, under the existing order of things and has so simplified matters that all the ordinary avocations of life may be resumed without the consent of any one.

\$4,471,702 IS TOTAL OF SUBSCRIPTIONS

SAN FRANCISCO, May 4.—The finance committee today reported the following relief subscriptions to date:

Total actually promised, \$3,984,952.

Verbal promises unconfirmed, \$485,750.

Grand total, \$4,471,702.

OAKLAND IS NOW BANKING CENTER

"With the deepest regret for the misfortune which has overtaken San Francisco, and without any selfish desire to take advantage of it, the Oakland banks have been immensely benefited by it," was the comment of one of the leading bankers of this city on the present situation of the banking business. "Business is improving with us every hour in the day. In one bank the deposits have reached that point where they amount practically to fifty to one of the withdrawals. Few among our depositors have, apparently, any need or desire to draw their money. The misfortunes of our neighbor across the bay have been the making of Oakland. We are not saying this in an exultant mood, because that would be a heartless thing to do. But the business has been thrust upon us by circumstances over which we have had no control, and which could not be avoided, and much, if not all of it is here to stay."

"Our greatest concern just now," remarked another bank president this morning, "is to take care of the new deposits which have been suddenly made with us and the mass of checks that are

IS KILLED BY BAND OF ZULUS

PIETERMARITZBURG, Natal, May 4.—An outrage which may have serious consequences has occurred in Zululand. Mr. Stainbank, the British magistrate at Mahlabitini, Zululand, has been killed by Zulus while collecting taxes near that place. Mr. Stainbank, his wife, a woman companion and some mounted police were caught in an ambush by hostile natives, who fired a volley at them. The magistrate and one of the policemen were fatally wounded. Mr. Stainbank and the two ladies managed to reach Mahlabitini, where the magistrate died of his wounds.

Mahlabitini lies to the westward of the forest where Bambata, the insurgent chief, formerly the regent of the Greytown district, Natal, who has been armed against the local authorities for a month past, had been hiding and it is asserted here that there seems to be no doubt that the rebel chief has succeeded in inducing another tribe of Zulus to join in the revolt.

REFUGEE DIES IN HOSPITAL

Peter Nelson, one of those who escaped from the general destruction in San Francisco and sought refuge in this city, died last night at the Emergency Hospital at the refuge camp at the Piedmont Rink. Nelson was a native of Finland, and was 45 years of age. So far as is known he leaves no relatives in this city. The remains were removed to the morgue.

ENOUGH WORKMEN ON HAND

SAN FRANCISCO, May 4.—P. H. McCarthy, president of the Building Trades Council, stated this morning to a TRIBUNE reporter that there were plenty of mechanics in San Francisco and that it would be undesirable for mechanics in other cities and towns to come here for the present.

"There are," said McCarthy, "more than 10,000 mechanics at work at the present time. In addition to this number there are more than 20,000 registered at the headquarters of the Trades Council at 640 Golden Gate avenue.

"As soon as the buildings are commenced and there is need for more bricklayers and mechanics I am in a position to furnish any number of men. It would be unwise at the present to import any extra men for there is no means of caring for them at the present.

"I have been made to say," he explained, "that between 2000 and 2100 men have been registered at our headquarters of whom 1100 are employed and 1000 unemployed. These numbers as will be seen, are far too small."

SHIP IS SUNK BY ICEBERG

LONDON, May 4.—The British steamer Anglo-Peruvian, Captain Curtis, from Shields April 11 for Philadelphia, foundered recently in the Atlantic as the result of a collision with an iceberg. All members of her crew were picked up by the British steamer Mohawk, from New York April 20 for Antwerp, which passed Pawle Point today and signaled the news. Recent arrivals at British ports have reported icebergs dangerous to navigation in the track of the Atlantic liners.

EXPECT A STRIKE

SCRANTON, Pa., May 4.—There seems but slight hope for a peaceful settlement of the controversy in the anthracite coal field. A large number of the delegates to the United Mine Workers' convention express the opinion that a strike is their only alternative. A decision is looked for today or tomorrow at the latest.

PLEADED GUILTY. Manuel Alameda, charged with disturbing the peace of E. C. Kahn, at Seventh and Pine streets, in West Oakland, pleaded guilty to both charges this morning in Department Two of the Police Court. Judge Samuels will impose sentence tomorrow.

FOOD IS DESIRED AT ONCE

SAN FRANCISCO, May 4.—The food situation continues to be one of vital importance in this city. According to an official canvass made by General Greely as to the number of persons receiving food free exceed \$100,000. This number is said to be a conservative estimate. It is probable, however, that there are many duplications and this would materially cut the estimate of \$700,000 or more down.

James D. Phelan, chairman of the Finance Committee, made the following statement before the general committee this morning: "I have been advised by General Greely to conserve the funds which have been placed in my hands as famine will possibly be one of the things this city must contend against. "There remains but ten days' food supply. If more is not forthcoming this city will be pinched by the pangs of hunger. "The matter of procuring food will be taken up later in the day and a solution arrived at if possible."

WORK CONSIDERED BY GENERAL COMMITTEE

SAN FRANCISCO, May 4.—The work of the general committee is rapidly drawing to a close. Its sub-committees are submitting their final reports and asking for their discharge, which, with the thanks of the main body, is being accorded them. It is recognized that the work of relief having been turned over to the military and the Red Cross, the affirmative labors devolving on the reconstruction committee of forty are those that now most concern the citizens. Both the water committee, and that on transportation were discharged from further action this morning. The Mayor stated that it was his intention to make a tour of inspection of the water system of the Spring Valley Company with Chief Engineer Schuler on Sunday morning. Mr. Mullally, of the transportation committee, in asking for the discharge of that body, stated that his company now was operating ninety cars. Mr. Phelan, of the finance committee, stated that Thursday's contributions from outside the city amounted to \$188,924, and the local contributions to \$2550, or a total for the day of \$204,448, or, including sums of which the committee had word, but no confirmation, a grand total of \$4,481,000. Of cash on hand in the mint there was something less than \$500,000, but this did not include many drafts which would be posted today to the credit of that fund, and would increase it very materially.

PRESIDENT ROOSEVELT RUSHING THE WORK ON STANDARD OIL OF REGENERATION

WASHINGTON, May 4.—President Roosevelt today transmitted to Congress the report of James R. Garfield, Commissioner of Corporations, giving the result of his investigation of the object of transportation and freight rates in connection with the industry.

In his message the President expressed the view that the report is of capital importance because of the effort now being made to secure such an enlargement of the powers of the Interstate Commerce Commission as will confer upon the commission power in some measure adequate to meet the clearly demonstrated needs of the situation. The facts set forth in the report, he declares, are for the most part not disputed. That the Standard Oil Company has benefited enormously up almost to the present moment by secret rates, many of which were clearly unlawful, the President says the report clearly shows, the benefit thereby accruing to at least three-quarters of a million dollars a year.

AT EXPENSE OF PUBLIC.

On this subject he says: "This three-quarters of a million represents the profit that the Standard Oil Company obtains at the expense of the railroads. But of course the ultimate result is that it obtains a much larger profit at the expense of the public. A very striking result of the investigation has been that shortly after the discovery of these secret rates by the Commissioner of Corporations the major portion of them were promptly corrected by the railroads, so that most of them have now been done away with. This immediate correction, partial or complete, of the secret rates is of course on the one hand an acknowledgment that they were wrong and yet were persevered in until exposed; and on the other hand a proof of the efficiency of the work that has been done by the Bureau of Corporations."

WILL PROSECUTE.

The statement is added that the Department of Justice will take up the question of instituting prosecutions in at least certain of the cases and the President has expressed the hope that Congress will enact into law the bill of Senator Knox to correct the interpretation of the immunity provision rendered in Judge Humphreys' decision. Continuing the President says: "An immediate result of this determination of the competitive area is shown by the Standard Oil profits immediately after the open rates were set at rates as to give it an overwhelming advantage over its independent competitors. This is a characteristic example of the numerous evils which are inevitable under a system in which the big monopolies are allowed to crush out all individual initiative and all power of independent action because of the absence of adequate governmental control. Exactly similar conditions obtain in a large part of the West and Southwest."

GROSS FAVORITISM.

It is not possible, he says, to put into figures the exact amount by which the Standard profits through the gross favoritism shown by the railroads in connection with the open rates.

"The profit of course, comes not merely by the favoring of one company as compared with its competitors but by the higher prices it is able to charge for its products, which are sold in the market which it secures, thereby getting the profit on the whole consumption."

There is, he says, a further feature of the report regarding the manner in which the law is evaded by treatment as to interstate commerce. He says it is clearly shown "that this device is employed on as many other railroads. In such fashion as to amount to thwarting the purpose of the law, although the form of the law is complied with."

It is unfortunately, he says, that the Standard Oil Company is the only corporation which has benefited and is benefiting in wholly improper fashion by an elaborate series of rate discriminations. The sugar trust, he adds, according to the results of the investigation, has been found to have paid the lowest rates for transportation.

FAVORS COMPETITION.

He declares that in the effort to prevent the railroads from uniting for proper purposes, the law is being unlawfully prohibited them from uniting for proper purposes, that is, for purposes of protecting themselves and the general public as against the power of the great corporations."

He favors, as an element of competition, putting alcohol used in the arts on the free list and of keeping the free to oil and coal lands of the government, the lands to be leased only on such terms and for such periods as will enable the government to entirely control them.

GARFIELD'S REPORT.

WASHINGTON, May 1.—The following report of Commissioner Garfield was submitted to Congress today:

"The Commissioner of Corporations, James R. Garfield, speaks of his personal visit to the oil fields and of the great quantities of oil being transported to the coast for exportation. He says that the Standard Oil Company has been the largest beneficiary of the oil business, and that it has been the largest beneficiary of the oil business, and that it has been the largest beneficiary of the oil business."

OAKLAND OLD FOLKS

Should Read This.

"One of the saddest sights in the world is an aged person with tottering steps and bowed down with the infirmities of old age," said Mr. Spooner of The Owl Drug Company, "and if the publishers of THE TRIBUNE only realized the good Vinol will do for the aged residents of Oakland they would devote columns of space in their paper urging such people to take our liver oil preparation, Vinol."

"When a person reaches that time in life where they are on the downward path, all the organs act more slowly, the blood becomes thin and sluggish, and it is difficult to obtain sufficient nourishment from the food eaten to keep up strength and vitality. Vinol changes a decrepit old person into a healthy, cheerful companion, because it is nature's remedy for creating strength and vitality."

Vinol is not a patent medicine, as everything it contains is named on the back label of every bottle. It is guaranteed to be a genuine cod liver oil medicine, containing all the medicinal curative and strength-giving elements of cod liver oil actually taken from fresh cod livers, with organic iron and other body-building elements, and we guarantee to the aged, the weak, run-down, debilitated and convalescent of Oakland, that Vinol will repair worn tissues and replace weakness with strength or return money in every case where it fails."—The Owl Drug Co.

amounts to about \$8,000,000 barrels annually, of which the Standard Oil Company directly and indirectly controls about \$2,000,000, and approximately the same proportion of the other finished products of petroleum. Continuing, the report says:

"The Standard Oil Company claims that the use of its pipelines and the use of its pipelines is justly entitled by reason of the energy and foresight of its management. While in a measure true, it must not be forgotten that these advantages were in part obtained by means of unfair competitive methods after years of fierce industrial strife."

SPECIAL AGREEMENTS.

"The development of the pipeline system by the Standard Oil Company was the result of special agreements with so-called natural advantages have been obtained in freight rates, both published and secret, interstate and state, which give the Standard monopolistic control in the greater part of the country, and which so limit competition as to practically prevent it from attaining a point which even remotely endangers the supremacy of the Standard."

"The ordinary illuminating oil throughout the country. After deducting the freight rate the price of such oil is usually from 3 cents to 4 cents a gallon. The non-competitive nature of the competitive fields. A reasonable profit upon refined oil is about 1 cent per gallon. It is clear that exorbitant profits are obtained in the non-competitive fields. This monopolistic control extends from the well of the producer to the doorstep of the consumer."

Mr. Garfield cites the fact that the New York Central Railroad Company has been for years and will continue to be a record of records of state rates.

MAKES A DENIAL.

At the beginning of the investigation, he says, the Standard Oil Company denied that it had obtained in recent years or was now obtaining any rebate or other transportation discriminatory as against its competitors. And yet he says that a careful review of the facts and the explanation leads to the conclusion that the Standard Oil Company has habitually received from the railroads and is now receiving secret rates and other unjust and illegal discriminations.

He then goes on to show where there is discrimination. He concludes as follows:

"The advantages of the Standard Oil Company would alone give it a highly favorable position in the oil industry. To a certain extent the policy of railroads would be to neutralize these advantages by giving favorable rates to the smaller refineries. The Standard Oil Company, through its pipe lines and its fleet of oil-carrying vessels, is an active and powerful competitor of railroads. Except in the Texas and California fields it has already taken the transportation of crude oil almost wholly away from the railroads."

"The general policy of the railroads with regard to other freight traffic has been to equalize conditions of competition in given markets by the use of rebates and other rates relative more favorable to distant producing points than to the nearer producing points. But it appears that in the case of the oil industry the policy has been generally reversed and that the Standard Oil Company has obtained from the railroads and is now receiving secret rates and other unjust and illegal discriminations."

NEW YORK, May 4.—Then the President's message, with the accompanying report of Commissioner Garfield, was received at the office of the Standard Oil Company, Mr. Elliott, general counsel of the company, was asked what reply he cared to make.

He said:

"It is difficult to comment hurriedly and with due restraint on the astonishing report of Mr. Garfield. We must, however, in justice to ourselves and our shareholders, immediately express our unbounded surprise over Mr. Garfield's report, on which, of course, the President's message is based, and our unqualified declaration that it is absolutely unfair and unjust toward us. We do not hesitate for a moment to say that an unprejudiced study of the facts presented by us to Mr. Garfield's investigators will indicate us absolutely correct."

"In this statement we make no reservation, but mean it to apply to all the charges of railroad favors in any form, unfair rates, rebates, and the common charges to our competitors, and, indeed, all the charges so maliciously, persistently and unfairly made against us. Our great business has been built up and perpetuated on merit. The common charges have been built up by railroads favoritism is ridiculously false as has been repeatedly proven."

"We assert unqualifiedly that since the passage of the Interstate Commerce law, our business has been conducted with scrupulous regard for its provisions. We have been questioned on this subject many times by tribunals, not always friendly, and their findings have been uniformly in our favor."

WELCOMED INQUIRY.

"The present investigation was the immediate result of an agitation in Kansas, some time ago, when a year ago the resolution ordering it having been introduced in the House by a member from the State of Kansas. We were informed and at once laid bare all the facts to Mr. Garfield's department. In spite of our repeated importuning Mr. Garfield had refused to make public the conditions shown to exist in Kansas and which were greater in fact than the contents himself set forth in his report. We have been asked to furnish the barest reference to the matter, but we have refused to do so, because it would be to the utmost every incident that could possibly be used in our condemnation. It is only fair to say that in the interim the Kansas courts have dismissed every action taken against us on this time."

"We will, of course, make a fuller and more specific review of Mr. Garfield's report, but we are long ago made known to unfair criticism on this subject, but we have been asked to furnish the barest reference to the matter, but we have refused to do so, because it would be to the utmost every incident that could possibly be used in our condemnation. It is only fair to say that in the interim the Kansas courts have dismissed every action taken against us on this time."

SAN FRANCISCO, May 4.—The rehabilitation of the burned district is proceeding with phenomenal activity. Every day shows a marvelous change in the opening of wrecked and obstructed streets. House cleaning is also the order of the hour in the big office buildings which survived the catastrophe. The temporary wants of business, are being erected under special permits at various points through the heart of the old business quarters. Over 8000 carpenters are now employed in this class of work and in the restoration of such buildings as were damaged by earthquake or fire which are still habitable. Over 1600 laborers are being employed on Market street, between the Ferry building and Powell street. The Southern Pacific Company has 850 men at work laying temporary tracks along the main thoroughfares for the removal of debris and to expedite the delivery of new building materials. The Ocean Shore Electric Railroad Company has numerous gangs of laborers employed in the same kind of service. This is the best kind of emergency work, for the cleaning of the streets and the removal of debris and the handling of materials for the reconstruction of the latter are impossible tasks for teams. In the case of the houses and the removal of debris and the handling of materials for the reconstruction of the latter are impossible tasks for teams. In the case of the houses and the removal of debris and the handling of materials for the reconstruction of the latter are impossible tasks for teams.

The Spring Valley Water Company is restoring the water supply to its normal condition.

The energy which is being displayed by the owners of the big office buildings that survived the earthquake and the conflagration to restore them to usefulness is exemplified in the James L. Flood building where nearly 300 laborers are removing the debris from the various floors preparatory to beginning to rebuild. The same energy and the same spirit is being manifested in the other large office buildings whose walls, frames and floors remain sound. Their owners are rushing the work of reconstruction. Their example is having a beneficial effect upon other owners of property who are encouraged to rebuild without delay. The directors of the Mechanics' Institute are perfecting plans for the rebuilding of its library on Post street and providing its new stock of books for the building to be purchased with its \$135,000 surplus.

ALAMEDA PIONEER GONE TO HIS REST.

ALAMEDA, May 4.—Charles W. Damon, one of California's oldest citizens and one of Alameda's pioneers, passed away this morning at his home at 2118 Railroad avenue. He was a native of Massachusetts and was 69 years of age. He came around the Horn and arrived in San Francisco in July, 1841. He has done considerable farming throughout the country. He was a member of the Grand Lodge of the Elks and the Elks Lodge of Odd Fellows, under whose auspices he will be buried on Sunday.

DIED.

PETAR.—In this city May 3, 1906, Charles Clinton Petar, beloved son of Mrs. Veronica Petar and brother of Sylvia, died at the residence of his mother, a native of California, aged 25 years.

Friends and acquaintances are respectfully invited to attend the funeral, which will be held at 2 o'clock p. m. from his late residence, 617 16th at intersection 31st, Wednesday, May 4.

TUTTLE.—In this city, May 3, 1906, Orville J. Tuttle, wife of H. S. Tuttle, and mother of Mrs. J. J. Murphy, died at the residence of her mother, Mrs. E. A. Tuttle, a native of Maine, aged 67.

CUSHMAN.—In this city, May 3, 1906, Myra May Cushman, beloved child of C. A. Cushman and wife, died at the residence of her mother, a native of Oakland, aged 1 year, 6 months and 15 days.

WILL PAY BOARD BILL.

D. L. Grace, a railroad man, charged with defrauding an inn-keeper, entered a plea of guilty before Judge Samuels in Department Two of the Police Court this morning. On his promise to at once pay the amount owed for board to P. L. Ears, the complaining hotel keeper, the case was continued to May 12 for sentence, and Grace was released from prison on his own recognizance.

WANTED

Rich parents for the adoption of this little girl. I found her over in Golden Gate Park seated under a Banana tree. She lost every thing but the grin on her face and this little dress. Has golden brown hair, green eyes, (one of 'em black now) and a sunny disposition, kind and gentle and stands without a hitch. Drive single or double. Wanted all wool but not quite a yard wide. Come and get her quick 'cause I'm too busy helping to set stuff here to bother with her and if I did pay her any marked attention I would be laying myself liable for a breach of promise until I am 80 years old—go; if you want any thing in our line you will have to move quick or else order fig leaves, 'cause goods like we sell at regular prices will be scarce than teeth in a hen before many moons. Hurry up come a runnin'! Phone in if you can't come yourself. Garments by the Roseman labels are just like those shiny things that have the God-deas of Liberty on one side and a eagle on the other. Apply for the girl to WILLIE, at C. J. HENNESTMAN'S, Clothing Store, 1107 to 1113 Washington Street.

tion of a solid steel-frame building on Clay and Commercial streets, between Sansome and Montgomery.

At a meeting of the Committee of Forty appointed by the Mayor to frame plans for the rebuilding of the city, which the widening of streets and the altering of grades is involved, the City Engineer submitted the following suggestions:

Sacramento, Clay, Washington, Jackson, Pacific, Montgomery and Dupont streets should be widened; Montgomery street should be extended to Market street; Van Ness avenue should be widened toward Polk, and should be extended southward from Market to Mission street; a northward and southerly street between Sansome and Grant avenue, and easterly and westerly street, say, city street should be widened to 16 feet, thus dividing the fifty-yard district into four fire-protected districts; a diagonal street should be run southeasterly from City Hall avenue and Market street; the property between the same street, say, Grant avenue, should be extended southward from Market street, California street should be created with winding streets; East street along the water front, should be remodelled and adjusted; the grade on Second street southerly from Howard street, should be lowered, affording access to the new Pacific Mail docks; the grade on Golden Gate street, southerly from Market street, should be lowered; the grade on Sansome street, northerly from Pacific street, should be lowered; the grade on Montgomery street, southerly from Pacific street, should be lowered.

The great disaster has revolutionized popular sentiment toward the earthquake and the conflagration over whose aftermath he presides. He has suddenly become one of the most popular men in town. He has been the recipient of a vast amount of sympathy and aid. He is credited with having saved the city from a disaster which would have been a disaster to the city. He is credited with having saved the city from a disaster which would have been a disaster to the city. He is credited with having saved the city from a disaster which would have been a disaster to the city.

SPORTS

SCHRECK AND
HART, SLUGGERSREIDY'S CURVES
STRAIGHTENED

NEW YORK, May 4.—For the first time since the repeal of the liquor law governing boxing bouts in this State, two heavy weight pugilists of prominence met here tonight in a four-round contest. The principals were Marvin Hart of Louisville, Ky., and Mike Shanley of Chicago, and they appeared in the Madison-street Garden Concert Hall.

The men were slow in the opening round, but fought each other almost to a standstill in the other three rounds. Neither seemed to have trained for this contest, and they simply slugged wildly without any show of science or judgment. No decision could be rendered under the existing legal restrictions. Only club members were admitted. The membership books were open until 7 p. m.

JIMMY BRITT
VS. MCGOVERN

SAN FRANCISCO, May 4.—James E. Britt stated today that he had accepted a match for a ten-round bout with Tommy McGovern at Madison Square Garden on May 28. Jimmy will leave for New York on Monday.

GREELY MOVES
HEADQUARTERS

SAN FRANCISCO, May 4.—Major General Greely has moved his headquarters from Fort Mason to the Presidio, and will from now on direct the affairs in which he is engaged from there. The corps of clerks which had quarters in the Phelan building on Market street near Mason, prior to the earthquake, but who have made life and bustle at Fort Mason for several weeks past, have also gone, and the place is once more taking on something of the air usual to it. The transferring of the army headquarters to the Presidio will, of course, give new activity to the post.

CHINESE REFUGEE DIES.
Mrs. Chin Lun Moy, the wife of a former wealthy Chinese tailor of San Francisco, who was reduced to beggary by the destruction of his shop, died last night at the Central Hospital in this city, where Moy, with his family, sought refuge after the burning of his home. The deceased was 40 years of age, and his children, her husband leaves several children. Before the earthquake Moy was reported to be worth \$20,000, all of which he lost in the disaster across the bay. The case was reported to the coroner.

NEW YORK, May 4.—A return flow of the millions of dollars sent to the Pacific Coast during the past fortnight has set in. The National City Bank was today advised that its correspondents at Oakland had arranged to transfer \$500,000 by telegraph to this city, and other banks and financial institutions have received similar advices.

PORTLAND, Or., May 4.—Bill Essick had the Indian sign on the Com-munists yesterday afternoon and when they had waltzed nine times to the bat their portion of the score board was decorated with nine large goose eggs, and Essick had only three hits registered against him.

On the other hand Portland commenced hitting the ball in the first inning and kept it up throughout the game. Score:

R. H. E.
Oakland .. 0 0 0 0 0 0 0 0 0 0 0 0 2
Portland .. 5 0 2 1 0 1 0 0 0 0 15 4
Batteries—Reidy and Biles; Essick and McLean. Umpire—Knell.

SEATTLE LAID LOW.
SEATTLE, May 4.—Perfect fielding behind Henley at critical points enabled San Francisco to score her second consecutive shutout. A single hit in any one of six innings would have changed the aspect of the game, but Seattle was not equal to the emergency. Score:

R. H. E.
Seattle .. 0 0 0 0 0 0 0 0 0 0 0 0 1
S. F. .. 1 0 0 0 0 0 0 1 0 2 9 0
Batteries—Jones and Pratt; Henley and Wilson. Umpire—Perrine.

FRESNO WINS.
FRESNO, May 4.—Fresno played errorless ball yesterday, while Fitzgerald pitched in fine form. Errors, following upon two hits in the second inning, gave Fresno two runs.

The score stood 2 to 1 until the eighth, when Tozer dislocated the first joint of his little finger and was unable to control the ball. After he had filled the bases by walking two and hitting one with the ball, Eagan came to the bat and lined out a three-bagger, scoring immediately after for the sixth run of the game on Dashwood's hit. Score:

R. H. E.
Los Angeles .. 1 5 3
Fresno .. 6 6 0
Batteries—Tozer and Eager; Fitzgerald and Dashwood. Umpire—McDonald.

SEATTLE, Wash., May 4.—The initial step toward the establishment of a Northwest Baseball League was taken at a meeting here last night. President W. H. Lucas of the Northwest League, Jim Agnew of Seattle, A. J. Dorsey of Spokane, T. C. Gillis of Butte, Mont., Robert Brown of Grays Harbor and George Schroeder of Tacoma were present.

Owing to technicalities over rights of the Coast and Northwestern Leagues, no definite action was taken, but with these cleared away the crystallization of the elements of the new league will be prompt.

Seattle and Portland will be taken into the new association of clubs following arrangements to be made with the National Association which will obviate a clash with the baseball law. Jim Agnew is endeavoring to frame

CRANE JURY TO MEET

SAN FRANCISCO, May 4.—The San Francisco Grand Jury will meet next Monday and under consideration many municipal matters that demand its attention. Secretary Cerf today announced that the jurors would be called together in the courtroom of Judge Thomas F. Graham in Temple Israel at California and Webster streets.

DESPONDENT MAN ENDS HIS LIFE

Rendered despondent by the destruction of the bakery of his bakery, his only means of earning a livelihood, David G. Brown, who lived at his shop, at 220 Sixth street, last night committed suicide by hanging himself with a rope made from a sheet to a beam which had been dislodged from the ceiling of the bakery by the shock of the temblor.

Since the earthquake Brown has been very despondent, and his condition was rendered worse yesterday by attending the funeral of a friend.

On returning from the funeral the baker retired early in the evening, but some time during the night he arose, and twisting one of the sheets from his bed into a rope, he tied one end to a joist in the ceiling of the bakery, and placing the other end in the fire and about his neck, swung himself into eternity.

The body, cold in death, was discovered this morning by Richard Brown, a son of the deceased, who at once reported the suicide to the coroner. The remains were removed to the morgue and an inquest will be held.

Beside the son who found his body,

PATIENT TRIES TO CHANGE HOSPITALS.

Mrs. Anna Tennell, a middle-aged English woman, who fell down the back stairs at 1135 Jackson street, came in from the County Infirmary this morning to have the break in her arm and cut on her chin which resulted from the fall dressed at the Receiving Hospital. But as the rules prohibit that she was disappointed.

GREAT FIRM FOR SAN FRANCISCO.

SAN FRANCISCO, May 4.—Marshall Field & Co., the great dry goods firm of Chicago, are locating in San Francisco. They will invest millions in this city. Representatives of this great house were sent to San Francisco while the fire was raging to make the necessary arrangements for the establishment of a branch house here.

Marshall Field & Co. will locate temporary quarters on Filmore street, in the vicinity of Ellis and Edify. The representatives of Marshall Field & Co. are working very quietly, but in a couple of hours yesterday the news was circulated among some of the extensive merchants of this city. This recognition of the part of the Eastern house in the great future of San Francisco had a most stimulating effect on both retailers and real estate agents.

AGNEWS INMATES VERY CONTENTED.
Dr. Stocking, superintendent of the Agnews Institution, says the inmates of that red and comfortable, and that everything is moving in much order and system as moved before the earthquake. He also states that the survivors are cheerful and contented.

Hearst Tent City, Eighth and Pine streets, Oakland.

Soldiers bringing San Francisco Prisoners to Alameda County Jail.

CARS IN SERVICE

SAN FRANCISCO, May 4.—The United Railways have now ninety cars in service. The number of persons traveling by the service exceeds 80,000 a day. In a week more there will be 150 cars in operation. In three weeks normal service in all parts of the city will be established. The number of persons patronizing the street cars is taken as the best indication of the resumption of business in San Francisco.

REPORT AGAINST SAN FRANCISCO

WASHINGTON, May 4.—The Senate Committee on Finance today considered further the Newlands resolution in relation to an investigation by Congressional committees of means of guaranteeing the credit of San Francisco. Herbert E. Law of San Francisco, who was to have been heard, failed to arrive. The committee will make adverse report on the resolution tomorrow.

SHOT ON WAY HOME

MEMPHIS, Tenn., May 4.—Major T. D. Bowdre, a prominent cotton factor and director of the Commercial Appeal of this city, was shot and instantly killed by an unknown person last night while walking toward his home. No motive is known.

When Major Bowdre was killed he was within fifty yards of his home in one of the most prominent residential sections of the city and was returning from a visit to relatives. So far as known there were no witnesses to the killing. The only plausible theory advanced is that he probably was intercepted by footpads and refusing to deal with them was shot. Death was instantaneous.

PRESSMAN HAS HAND INJURED.

Roland Dantelson, aged 19 years, a pressman for the San Francisco "Call," at its present office, on Tenth street, Oakland, got his left hand caught in the machinery early this morning. The skin and flesh all over the hand were so badly torn that nineteen stitches were necessary to put it together again. The tendons all through the hand were exposed and some of them torn. He was treated by Dr. Irwin at the Receiving Hospital, and then walked to his temporary home at 1023 Belvedere avenue.

WATER SUPPLY

SAN FRANCISCO, May 4.—Mayor Schultz and Engineer Schuessler of the Spring Valley Water Company will tomorrow make a thorough inspection of the city with a view to re-establishing water connections in all parts of the city. The report of the Water Committee will assist materially in directing the efforts of the Mayor and the Spring Valley Water Company. There is now 14,000,000 gallons of water available per day, which is sufficient for fighting small fires and supplying the residences with necessary water.

METCALF LEAVES FOR THE EAST

Secretary of Commerce and Labor Victor H. Metcalf left for Washington on the overland limited this morning. He will make a personal report to President Roosevelt of the condition of affairs in San Francisco.

SOCIETY

One of the engagements of which no formal announcement has yet been made, is that of Miss Grace Rollins of this city and Herbert Hunt of San Francisco.

Miss Rollins is well known in the musical world, having been accompanist for Madame Schumann-Heine. She is a girl of great personal charm, and has a host of friends here. Miss Rollins spent several years in New York, and was prominent in Eastern musical circles. She had made her home in San Francisco previous to the fire, and is now on this side of the bay with her mother.

Mr. Hunt is a popular newspaper man, with a reputation in literary and artistic circles, and congenial pursuits led to the romance between the well-known couple. No date has been set for the wedding.

A WEDDING.

The marriage of Miss Veda Leggie and Earl Thomas Riley, which was to have been a June affair, took place quietly on Thursday, April 19, at the Episcopal church in Santa Rosa. The bride was formerly a Mills College girl, and plans were made for an elaborate wedding in June. Mr. and Mrs. Riley are spending their honeymoon at Skaggs Springs.

WEDDING CARDS.

Cards are out for the marriage of Miss Josephine Friserson and Ernest Stewart Ford, which is to take place Saturday, May 12, at the Friserson home on East Tenth street, East Oakland.

DOWNING-TRUBY.

A wedding which took place on the day originally set was that of Miss Bonnie Downing and Dr. Albert B. Truby, who were married on Thursday, April 25.

The ceremony was to have been performed at 4 o'clock on that afternoon at the home of the bride's parents, Mr. and Mrs. O. P. Downing on Green street, but took place instead at the San Leandro home of Socrates Huff, the bride's grandfather.

Dr. and Mrs. Truby were given a wedding supper by Dr. Stephenson in his quarters at the Presidio. The young couple have dispensed with a honeymoon, and will remain at the post.

SOCIETY TO ASSIST.

Society women are to assist the great work at the Hearst Reunion Camp and a committee has been formed to report all needy cases of mothers with young children, that they may be taken to the quarters established by Mr. Hearst. The women who are to assist the children's relief committee include Mrs. Inez Shorb-White (Chairman), Mrs. Eleanor Martin, Mrs. Josephine Ida Wheeler, Mrs. Frank Clark, Miss Edith Shorb, Mrs. Aylett R. Cotton and the entire Executive Board of the California Club.

FOR A GUEST.

Miss Bees Frazer of Sacramento was recently the guest of Mrs. E. B. Ream at her home on 18th street, and was the honored guest at a musicale given by Mrs. Ream.

The program was as follows: "Come Unto Me," tenor solo, R. Evans; "Someday," quartet, including Mrs. E. Ream, Messrs. Evans, White and Fritch; "Again," soprano solo, Miss B. Frazer; "Life As a Dream," contralto solo, Miss Corinne Vinson.

QUIET WEDDING.

The marriage of Arthur E. MacDonald and Miss Marion Horton was solemnized on the evening of Wednesday, April 25, at the home of the bride's parents. The wedding was a very quiet affair. There was no honeymoon trip and the young couple have settled in this city.

WEDDING NEWS.

The marriage of Miss Valda Eggers and George Brunell was quietly celebrated last Monday, all plans having been dispensed with. The bride was a favorite on both sides of the bay and was much entertained since the announcement of her engagement several months ago.

SOCIETY NOTES.

Mrs. Robert Sherwood of California street, San Francisco, lost her beautiful home and is with her son, Henry, at 109 Santa Rosa avenue.

Mr. and Mrs. W. R. Sherwood and Mr. and Mrs. E. Chapman are also sufferers from the fire, and are established at 177 Santa Rosa avenue for a few months.

Among those who have returned to this side of the bay are Mrs. Edwards, Miss Annette Edwards and Miss Lucille Parker.

Mrs. Reginald Deane Holmes, with her two children, are planning to leave in a few days for a visit to her mother in Portland.

Mr. and Mrs. Wallace Alexander were among those who suffered severely from the fire, having lost everything, including the many beautiful wedding gifts. They have been staying at the Hotel Street at the arrival of this week of a small daughter.

Mr. and Mrs. D. Edward Collins and family are planning to leave in a few days for a visit to her mother in Portland.

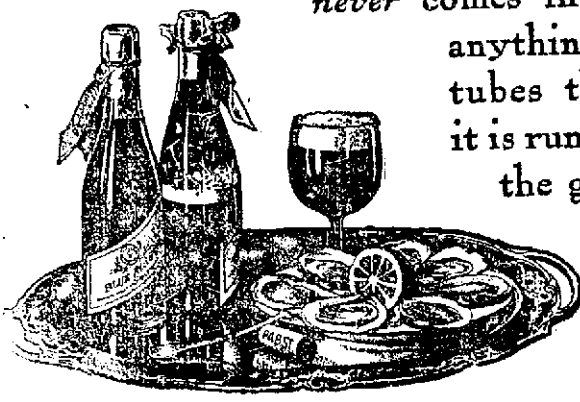

The Harry P. Carletons have leased their home and are planning to leave in a few days for a visit to her mother in Portland.

CALIFORNIA CLUB.

The club women of the State are among the most courageous workers, and

Pabst Beer Clean Beer

Physicians have said there is nothing better than Pabst Blue Ribbon Beer as a vitalizing tonic, because they know how it is made. They know the Pabst eight-day malting process and they understand the importance of the perfect purity and cleanliness of the Pabst exclusive process of brewing. They know the healthfulness of the beer produced by the Pabst process. People, and especially doctors, demand that everything they eat and drink be absolutely clean.

Pabst Beer is always clean and wholesome. The Pabst brewery is as clean as the cleanest kitchen. In the long process of brewing, Pabst beer never comes in contact with anything unclean. The tubes through which it is run, from the time the grain is mashed until the beer is bottled or kegged, are sterilized, to prevent any impurity or uncleanliness. Pabst Beer is not fermented in open vats, as is usual in breweries, but in special Pabst hermetically sealed tanks, into which no air, except pure filtered air, ever enters. Pabst Blue Ribbon Beer is not cooled, as is usual, in rooms where men walk in and out, but it is cooled in specially constructed sealed coolers where no hands can touch it, no breath of foul air can taint it. Only sterilized air is used to oxygenate it. It is then stored in hermetically sealed storage tanks until science and the test of time pronounce it perfect beer in age, purity and strength.

When Ordering, Call for Pabst Blue Ribbon Beer

at the annual election of the California Club this week held at the home of Mrs. Aylett R. Cotton. Plans were formulated for new work to be accomplished during the coming year, and officers elected to direct the work. Following are the officers for the ensuing year: President, Mrs. J. W. Orr; first vice-president, Mrs. E. J. Baldo; second vice-president, Mrs. A. V. Brown; directors—Mrs. E. Tojetti, Mrs. J. C. Crawford, Mrs. C. R. Johnson, Mrs. A. P. Black, Mrs. L. A. Hayward, Mrs. C. M. Kinne, Mrs. Charles Fonda and Mrs. James McDonald.

DIED.

HUMPHREYS.—In Oakland, May 2, 1906, Rose Humphreys, of the King's Daughters Home, San Francisco, wife of Arthur Humphreys, a native of Ireland, aged 74 years.

DWYER.—In this city, May 2, 1906, John J. Dwyer, beloved husband of Mary Grace Dwyer, of 4088 New Broadway, a native of Chicago, aged 47 years. New York and Chicago papers please copy.

Friends and acquaintances are respectfully invited to attend the funeral to-morrow, Saturday, May 5, at 9:30 o'clock a. m., from above residence. Decease to Sacred Heart Church, corner 4th and Grove streets, where a solemn requiem high mass will be celebrated for the repose of his soul, commencing at 10 o'clock a. m.

Too Late for Classification

MISS IDA WEINER.—Send address to 222 Diamond st., San Francisco; I am going away Monday, P. F. R. c. FURNITURE business, good will and lease for sale; best establishment on the coast to-day; a bargain. See H. Scheibhaus, cor. 11th and Franklin sts., Oakland.

FOR SALE.—Cheap; dry goods business; small, but good paying. Apply to Capt. Geo. E. White at Murphy, Grant & Co.'s, 5th and Franklin sts., Oakland, x.

YOUNG MAN, handy with tools, desires a job; any kind of work. Box 107 Tribune office.

FOUND.—A purse, on 8th st., bet. Market and West. Owner can get same at 855 Adeline.

Don't be a stranger to good tea and coffee.—Schilling's Best. Let us have your good will.—Schilling's Best.

WANTED.—Girl for general housework, small family. 680 10th.

El Principe de Gales

It means much that this is the largest-selling brand of Havana cigars in the United States. But it means more that it has held this position for nearly half a century. Many causes can make a cigar a large seller—there is but one cause that can keep it so—Quality.

The King of Havana Cigars

has won the foremost place in popularity and sales because it is just as good a cigar as can possibly be made. Originally famous as a Havana-made cigar, it is today made in Tampa, Florida, and is better than at any time in its 65 years of prominence.

A MILD CIGAR retaining the rich fragrance of the highest types of Havana leaf. 3 for 25c. to \$1 each.

DRUNKARDS 'WARE OF POLICE!

BALL AND CHAIN
METHOD TO
BE USED.

SAN FRANCISCO, May 4.—A ball and chain and plenty of hard labor for drunks—that is what the Police Department and the District Attorney's office are planning. The police judges, Chief Dinan and the District Attorney's office will enforce these drastic means to discourage intemperance. Up till now drunks have been confined in the Stanyan-street station, then kicked into the street. This has been done because there is no prison, temporary or permanent.

"We cannot run things according to Hells these times," said Judge Campbell. "Drunkness and lawlessness must be stopped and we will use the simplest and quickest methods to stamp them out. We need men these days."

"Ball and chain and work—that is what the District Attorney's office will use," said Assistant District Attorney Bernard Flood. "The drunks and the loafers must be weeded out."

TEMPORARY PRISON.
Chief Dinan, realizing the need of prison facilities, after consulting with his captains, decided to obtain a permit to erect a temporary prison and police headquarters in Union square. There are fifty carpenters on the force and the building could be put up with little expense. It is absolutely necessary, the chief declares, that the department have more commodious quarters at once.

The police courts will be located in the temporary Hall of Justice in Union square.

Regarding the present situation, Chief Dinan says:

"The small store at Bush and FMI—more streets is totally inadequate even for headquarters. We must have a suitable place as near as possible to our former location, and Union square seems to meet the case. We have about fifty members of the force, who are carpenters by trade, and it would not take them long to erect the building. Cells could be quickly put up to accommodate prisoners."

ARE OVERCROWDED.

"The only place where prisoners can now be confined is at the Stanyan-street station, where there are two cells. They have been overcrowded, and today I have turned over to the sheriff four men charged with murder and a man charged with looting who have been confined there. I have also instructed policemen who arrest drunks and men charged with misdemeanors to confine them for a few hours at the station and then kick them out. This has not with the approval of the police judges. I have not the slightest doubt but that the mayor will grant me the necessary permission to erect the building, and then the work will be proceeded with at once."

Chief Dinan received a letter yesterday from Chief J. H. Maddox of Fort Worth, Texas, enclosing a check for \$50 for the benefit of the families of afflicted policemen.

The widow of Max Fenner, the brave policeman who was killed on the morning of the earthquake, called at police headquarters yesterday morning. Chief Dinan gave her Fenner's salary warrant for this month, and also told her that she would get \$1100 from the Widows' and Orphans' Aid Association. Fenner, while trying to rescue some women in a house on Mason street, between Eddy and Ellis, was struck by a falling chimney and fatally injured. His remains were interred in Cypress Lawn Cemetery.

GORED TO DEATH BY A MAD BULL.

LOS ANGELES, May 4.—Jeremiah Lagomarcino, a seventy-year-old Italian dayman living on the Chavez road, was gored to death yesterday by a mad bull. The old man was walking in the pasture when the animal attacked him. Hearing the cries for help, his wife and one of the ranch hands made a desperate effort to save his life, but in turn were compelled to flee from the infuriated animal. Several neighbors armed with pitchforks and clubs came to the rescue, but the bull was finally driven into his pen, but not until Lagomarcino was fatally gored. A red waistcoat worn by the dayman caused the bull to attack him.

FIRST INSURANCE PAID TO GOVERNOR PARDEE

Governor Pardee was one of the sufferers by the San Francisco fire. He owned a residence at the corner of Fourth and Solano streets and at Fifteenth and Mission streets, which were totally destroyed in the fire following the earthquake.

Yesterday morning the full insurance on the buildings was paid to the Governor by John A. Beckwith, who represents

Photographs of an Ocean Shore locomotive and debris car, and of an improvised blacksmith shop on a flat car on Eleventh street. Also a sketch showing the Ocean Shore Railway laying tracks on Eleventh street, near Howard, San Francisco.

GREAT PLOT SPRECKELS TO ROB IS FOILED

HEAD OF BANK

REVOLUTIONISTS MADE PRESIDENT TUNNEL TO MAGAZINE.

OF THE FIRST NATIONAL.

BAKU, Caucasus, May 4.—A daring plot of Armenian revolutionists to rob the magazine in the arsenal here, guarded by the Saitvank regiment, and containing over a million cartridges, the entire reserve supply for all the regiments composing the garrison, has been accidentally discovered when the conspirators were already on the very verge of success. They bored a tunnel 700 feet long in the direction of the arsenal.

It was one of the most pretentious examples of subterranean work in revolutionary annals since the days of the terrorists of the eighties. From the basement of an Armenian house the revolutionists worked their way under several intervening residences to a depth of twenty feet.

COMPLETE TUNNEL.
They constructed a complete tunnel, roofed it with planks and provided it with electric light and electric bells, connected with the station of the several revolutionists on watch. Owing to a slight miscalculation the tunnel, in burrowing upward, entered not the magazine, but an adjoining storehouse in the arsenal containing uniforms. Before they had time to rectify their mistake, the revolutionists were accidentally discovered in the office, the alarm was given and a band of troops was immediately thrown around the adjoining houses. But owing to the length of the tunnel, the Armenian house from which the conspirators started, it was not suspected, and they had ample time to escape.

The entrance of the tunnel was eventually discovered by volunteers who entered it from the storehouse and traced the passage to its source.

SAN FRANCISCO, May 4.—Right in the thick of the work of reconstructing San Francisco comes a financial change that is causing all the bankers to speculate. Rudolph Spreckels, who has been active as the head of the Committee on Lighting, was yesterday elected president of the First National Bank to succeed S. G. Murphy, the venerable head of that great banking institution.

Little is known of the reason for making the change. Mr. Murphy has long been regarded as one of the foremost financiers of the West. It is told, however, that he has for some time expressed a desire to retire from the presidency and enjoy the fruits of his long career of activity.

It is told that there was quite a contest for the succession, James K. Lynch, the cashier of the bank, being desirous of promotion. He is related to James Moffit of Oakland, the millionaire member of the old firm of Blake & Moffit, who was a large stockholder in the bank. But Spreckels won the day and will take up the burden of steering the bank during the forthcoming activity.

Mr. Spreckels is the youngest son of Claus Spreckels, and was for a time estranged from his father. During that time he showed great financial genius and handled many large deals successfully. Recently there was a reconciliation, and just before the great disaster his aged father offered to back him in his big project for an opposition street railroad system. He is a millionaire in his own right.

CHILD POISONED.

Mrs. M. Cushman, daughter of Clarence A. Cushman a carpenter, aged one year, found some strychnine tablets yesterday morning at the home of her parents at 1212 15th avenue, and swallowed them. The child died in the effects of the poison in a short time. Dr. Stetson was called, but the poison had acted too quickly for him to do any good.

SAN FRANCISCO, May 4.—Some rapid track laying is being done by the railway companies that have agreed to carry off the debris from the burned district.

Already the Ocean Shore has built from Capp and Twenty-fifth down Howard to Eleventh street, and has a kite around the City Hall nearing completion.

The latter branch runs down City Hall avenue to Hyde street, then goes up McAllister street to Van Ness avenue, from which point it will be run south to connect with the tracks already laid on Howard street. The Southern Pacific is busily engaged putting down tracks on Seventh, Fourth and First streets.

The United Railroads is confining its debris line building to Market street. It has about a block of track laid on that thoroughfare, and will probably extend its temporary line as far as Valencia. Judging from present indications the actual work of removing debris will not begin until early next week. Hundreds of flat cars will be pressed into service and rush orders will prevail until the task is completed. Most of the debris is to be used by the various companies for filling and ballast.

SANTA FE COMPANY.
The Santa Fe Company is laying no spur tracks, but is devoting its attention to preparations for the expenditure of \$500,000 for freight sheds and team tracks at China Basin, which is to be the delivery point for all Santa Fe freight, except those consignments which will come naturally to the Spear and Harrison or Lombard street tracks.

SUPPLIES RECEIVED: SITUATION RELIEVED.

ALAMEDA, May 4.—The much-needed supplies have been received in Alameda. A carload came in yesterday afternoon, and the serious situation has been partially relieved. The supplies were obtained through the efforts of Captain A. P. Smiley, commanding at the Elks' Camp, and Senator E. K. Taylor.

DISMANTLING TOWER OF ALAMEDA HALL.

ALAMEDA, May 4.—The work of dismantling the City Hall tower, which was wrecked by the tremor of April 18, was commenced yesterday by Contractor George McRae. The matter is in the hands of City Trustees J. P. Perderer and Ernest Probst, who were appointed a committee of two by the board to take charge of the work. It is expected that the work will take about three weeks.

PALERMO SENDS SHOES AND HOSE.

ALAMEDA, May 4.—Two large boxes of new shoes were received yesterday morning at the home of Frank Briggs of Palermo, to be distributed to the needy refugees located in this city. The donation was made by the citizens of Palermo, and was doubly welcome, coming at the present time when outfits are needed. Each pair of shoes contained a pair of stockings.

'PHONE CO. HARD AT WORK

INSURANCE COMPANIES MEET

ARMY OF MEN IS RECONSTRUCTING THE SYSTEM.

AGITATION FOR MORE RIGID CONTRACTS.

SAN FRANCISCO, May 4.—The Pacific States Telephone and Telegraph Company will soon have an army of men at work reconstructing its system in this city.

The work is already under way and the Bell Telephone Company has given the California Company the right of way on all orders so that within a short period many more mechanics and laborers will be at work restoring the system.

The Telephone Company sustained a loss of about \$1,000,000 in excess of its insurance, the territory destroyed containing about 33,000 telephone stations and the district unburned about 18,000 stations.

MORE MEN WANTED.

The loss of four operating buildings requires a readjustment of its underground cable system to lead to the two operating buildings which are left, although the underground conduit and cable system was uninjured.

The action of several relief committees in causing the severance of all wires from buildings means that more men will have to be employed.

The corporation is endeavoring to give work to those who suffered in the great catastrophe before applying to outside places for help. The main telephone building is structurally in good condition and many men are finding work in cleaning it out.

SUNSET MAGAZINE'S PLANT IN ALAMEDA.

ALAMEDA, May 4.—The Sunset Magazine, published by the Southern Pacific Company, is establishing a plant in this city on Oak street, near Pacific avenue. The publication was formerly located on Market near Tenth street, San Francisco.

CHAIN GANG WARNING.

ALAMEDA, May 4.—The order has gone out from police headquarters that all men arrested for intoxication will be put in a chain gang. They will be given a hoe and made to clean the weeds out of the city's gutters. Everything will be done to discourage excessive use of liquor.

NEW YORK, May 4.—The Tribune today says: Some fire insurance men, frightened by the losses in San Francisco, started an agitation yesterday to make the form of insurance contracts more rigid.

A president of one of the big companies was approached by a man who wanted the contracts in the future to read that losses caused by earthquakes only cannot be recovered. In other words no insurance would be paid on a fire loss which was caused by a fire started by an earthquake in some other structure.

"I do not believe there is any chance of such restrictions being placed in contracts," said the president. "You might as well expect losses indirectly due to tornadoes or blizzards. New York might have burned up at the time of the great blizzard, but it would not have been right to have such a situation invalidate the insurance."

Several telegrams were received yesterday from officials and representatives of insurance companies who have reached San Francisco. One expressed the opinion that the companies would not be rid of more than fifteen per cent of their liabilities from the burned district through the action of earthquake. Other estimates ranged from that to forty per cent.

SOME ESTIMATES.

Several representatives of foreign companies are expected on the steamer Jefferson square. Nothing definite was decided yesterday on the proposition that the companies accept the loss of about 60 per cent of the claims within thirty days rather than have long litigation over them.

Efforts are being made to induce some of the big fire insurance companies to assist in financing the rebuilding of San Francisco.

Within a few days a leading business man of that city has been here on that mission, but so far as could be learned he has not been successful. While the companies undoubtedly will be willing to loan money on individuals given a hoe and made to clean the weeds out of the city's gutters. Everything will be done to discourage excessive use of liquor.

ALAMEDA, May 4.—The order has gone out from police headquarters that all men arrested for intoxication will be put in a chain gang. They will be given a hoe and made to clean the weeds out of the city's gutters. Everything will be done to discourage excessive use of liquor.

SAN FRANCISCO, May 4.—Plans have been drawn for a new Central Emergency Hospital which will be located in Jefferson square. Since the fire, the emergency work has been done in tents near the Haight street entrance to Golden Gate Park. Dr. C. P. Miller said this morning that as soon as a building can be run up the main work will be handled at Jefferson square.

PRISONERS LOOT AND MURDER

THREE WEEKS OF WILD FURY ENDED.

ST. PETERSBURG, May 4.—Belated letters from Alexandrovskyst, North Sakhalin, arriving in the first mail after months of interruption, bring a wild picture of the three weeks of murder and loot following the proclamation of peace and the evacuation by the Japanese of the northern half of the island.

The wild spirits among the prisoners, criminal and political, who form practically the entire population of Alexandrovskyst, broke loose from all restraint, applied torches to public and private buildings, drank themselves into a wild fury and vented their wild passions in pillage and murder.

Owing to the fierce October storms, the ships containing the troops dispatched to take possession of the island were driven of the coast and Colonel Valuyev, the military governor, landed with a military escort of only fifty men, a scanty force with which to face hundreds of desperate convicts during the three weeks before further troops were able to land.

WARM WELCOME.
These convicts prepared a warm welcome for the new governor, setting fire the day he landed to the police headquarters and the great Alexandrovskyst prison, ten separate buildings with accommodations for thousands of prisoners.

These were completely consumed, the Japanese having allowed the fire engines to become useless, but by the strenuous exertions of the Russian and Japanese soldiers, who worked side by side, and patrolled the city, to prevent further incendiarism, the fire was finally checked.

EVERYBODY DRUNK.
The next day the Japanese troops returned, having first sold their accumulated stocks of provisions and liquor at incredibly low prices, casks of "sak" ordinarily sold for \$5, going for ten cents; cases of tinned meat containing 75 pounds for 50 cents, and 274 tons of rice and buckwheat being disposed of in a lump for \$100.

Everybody became drunk and with provisions enough for the winter and no necessity for work, many of them kept up the debauch for weeks.

To protect the city, with his little garrison and the prisons destroyed, the governor had to resort to extraordinary measures.

The soldiers were ordered to make free use of their weapons and for petty offenses the cudgel or knout was resorted to, thieves getting first twenty-five lashes, later fifty and finally one hundred.

This sufficed, but the criminals living at Alexandrovskyst retired to places in the interior and the governor was forced to divide his fifty men, sending an officer and fifteen men to Pogib, five men to Arkovo, where the Japanese had left large stores of provisions, and three men to Rykovo.

The remnant stood guard day and night, but the convicts were able to set the torch to the chancellery of the governor, the club, the residence of the chief jailer, and many other buildings.

VESSELS WRECKED.

During the raging storms four steamers and a schooner, including a 3000-ton vessel from America, the German steamer Surabaja with a crew of sixty-seven men, and the Vladivostok with twenty-three men, which were endeavoring to bring supplies to Sakhalin, were wrecked on the inhospitable winter coasts of the island, and all on board were lost.

Finally, after twenty-two days, ships, with several thousand soldiers arrived and restored order. The new troops were without quarters, however, owing to the destruction of all the crown buildings and many other houses and suffered extremely from the severe cold until they could build barracks.

PLANS ARE DRAWN FOR NEW HOSPITAL

The new building will be but a temporary one of wood but will do until such time as the city can afford to take one. A wooden structure to take the place of the Park Emergency hospital is nearly completed and will handle the work in that section of the city. While the park hospital was out of the fire one it was so badly damaged by the earthquake as to make it untenable.

SHE ROBS DESTITUTE; WHINES FOR SYMPATHY

By HELEN WARWICK

For the past two weeks we have been all sympathy for the refugees from our beloved San Francisco. And haven't they deserved it in almost every case? Haven't they proven themselves the bravest, cheeriest set of people and more than a credit to our State?

But now that things are quieting down to some extent affairs are developing in certain quarters which make us feel very sad. Of course we all know that in the world there are people who wait for a chance to take every advantage who seek for a period where their fellow's hearts are wrung with sympathy, their hands outstretched in generosity—who take this time to impose on good nature, to line their own pockets?

In the city prison sits a woman named Goldie Zimst—a refugee! This morning I visited her there and with tears in her eyes she begged me to help her—to get her out—but no chord of sympathy vibrated in response to her pleadings—and when I tell you her story may be you will understand—will comprehend my feelings.

Goldie Zimst was confined in the general detention ward, and so I was shown into the private office of the Captain of Police, with the promise that she should soon appear.

In the captain's office I had heard her story—heard how she had obtained a pile of blankets four feet high—besides comforters and provisions under the pretense that she was destitute—that her children were starving. Her demands finally became so strenuous that the police took the matter in hand and she was hastened to the station. Here her person was searched and to the astonished gaze of the police authorities were disclosed \$150 in cash, considerable jewelry and two bank books containing accounts for about \$1500.

And this woman had come to Oakland—had been soliciting aid and obtaining it. Obtaining blankets and provisions which her fifteen year old son had sold in order to increase the bank account. This is the previous history of the case.

LOOKS THE PART.
This is what I heard and so I sat and waited in the Police Captain's office—waited to see Goldie Zimst. "Finally I heard footsteps approaching—coming nearer, and the great iron doors opened and clanked in the lock and I looked up and looked into Mrs. Zimst's shifty eyes.

Her appearance did not disappoint

me—she looked as I had anticipated—looked as such a character should look—shifty eyed, crafty and greedy.

"Well," I said, "you seem to be in trouble."

"In trouble, oh yes!" she cried "and why I'm here God knows—not I!" "But haven't you been taking and selling the blankets?" I asked. "Don't you know you have been taking the supplies which were for the poor and needy who have nothing left—who lost everything they possessed in the Francisco fire?"

Her shifty eyes searched my face—the craft of her race asserted itself and she tried to fathom my mind to detect how much I knew. But that I was not telling and so she took a chance. Possibly she is used to taking chances, as she has long been the proprietress of a pawnbroker's establishment at Sixth and Bryant streets in the burmese district.

"Alas," she cried, "what have I more than they—we are all the same—scarcely a speck have I eaten since the quake? I have almost starved!" "What have you?" I queried in return. "Fifteen dollars have you not? \$15 in cash and some jewelry?"

CHANGES PLEA.
A blank look came over her face—but she knew that I knew all and so her resigned tone changed to a whine for sympathy.

"But that little money how long will it last? What will we do? My children have when it is gone. We must go away and why not take when the others do?"

"Why not take the goods supplied in many cases by persons worth for less—why not procure the blankets and sell them when we need them? I mean with not one cent would shiver with cold without them—why not seize the provisions where hundreds worthy and penniless would go hungry without them?" said I.

"Why not?" she asked. "The provisions will not last forever, and the blanket supply is not without an end," I answered, and she replied "But others—others not burned out do the same."

God bless our poor refugees—our brave, burned-out people, every bit of help we can give them is sympathy they more than deserve but for the people who are making money at their expense—who are taking their supplies to further their own ends, I believe imprisonment is none too good.

DR. DEVINE MAKES REPORT

NEW YORK, May 4.—Secretary Langdon of the local Red Cross organization received a telegram yesterday from Dr. Devine, the national field agent of the society, in which he informed Mr. Langdon that he had organized the city of San Francisco into seven sections for relief purposes and was working hand in hand with the military authorities in co-ordinating all volunteer relief work to administer aid under this plan.

A complete, simple registration, Dr. Devine wired, was being worked out, while free employment bureaus had been opened under the auspices of the State Labor Commissioner and with the co-operation of both trades unions and employers.

Dr. Devine reports having visited Santa Rosa, and found terrible destitution, but satisfactory relief measures.

In reply to a wired query to what refugees from San Francisco were being sent to this city and whether their arrival here might tend to embarrass the "Charity Organization Society," Dr. Devine sent the following telegram:

"William C. Langdon, Red Cross, New York: Committee has authority to issue free transportation until May 5, is trying to send persons to relatives only. They repudiate my plan to New York. Colonel Torney, of the army, in full charge of sanitation. Medical help from outside not needed."

A novel resolution to help the San Francisco sufferers has been adopted by the New York Stamp Society. The society, which is composed solely of collectors of rare postage stamps, requests all philatelists and the public at large to assist in this movement, each contributing one or more stamps to be sold at auction at the society's rooms here on May 18.

COLLEGE ALUMNI MAKE CONTRIBUTION.

SAN FRANCISCO, May 4.—Thornwald Mullaly of the United Railroads has received a check for \$176 for the relief of the San Francisco sufferers, sent by the Yale Alumni of Plainfield, N. J. In the communication which accompanied the check it was stated that the money was raised at a dinner given by the graduates.

BOY BITTEN.

Freddie Gasslander, the fourteen-year-old son of some San Francisco refugees, who are stopping near the foot of Alameda street, while at Adams' wharf yesterday, was severely bitten in the right foot by a dog supposed to belong to the steamer Labou. He was treated at the Receiving Hospital.

DAUGHTERS OF CONFEDERACY. BERKELEY, May 4.—The next regular meeting of the Daughters of Confederacy will be held Monday afternoon at the home of Mrs. Joseph LeComte, on Bancroft way. The vital question of discussing ways and means of alleviating the suffering of the refugees will be discussed. Many prominent members of the organization will be heard at this conference.

APPEALS FOR AID TO WOMEN

ALAMEDA, May 4.—The members of the Alameda Club met this afternoon at the home of Mrs. R. R. McGinn, 231 Central avenue. Plans for relief were talked over and the members are to enter into the duties heart and soul.

The following self-explanatory letter was considered:

"Mrs. T. R. McGinn, president Adelphi Club. Dear Madam:—Because of the awful calamity that has visited San Francisco, many women refugees are in Alameda, homeless, destitute, and without employment. Existing conditions make it unwise and unsafe for these women to remain in a mixed camp, or in any camp. The women of Oakland, therefore, appeal to the women of California everywhere to assist them in finding homes and employment for the destitute persons. They represent almost every trade, dressmakers, milliners, stenographers, laundresses, domestics, etc."

"Will you interest the women of your town and your club immediately and send word as to the number of women you find employment for, and the kind of work to be done?"

The need is greater than I can express in a letter, and dispatch is absolutely necessary. Respectfully yours, "Member of Relief Committee, 1090 Poplar street, Oakland."

LOS ANGELES PRAISES OAKLAND'S RELIEF.

Rev. B. Fay Mills of Los Angeles, who came here soon after the earthquake of April 18 with the Los Angeles "Examiner" relief corps to aid in relief work, has returned to his home place and writes the following encouraging and congratulatory letter to Mayor Mott:

"Los Angeles, May 2, 1906.
"The Hon. Frank K. Mott, Mayor of Oakland—My Dear Mayor: If you will take thirty seconds of your valuable time to look at the heading of the enclosed clipping from today's Los Angeles 'Examiner,' you will see that I have not forgotten you or Oakland."

"We are just issuing the earthquake edition of our Relief Corps magazine, which will be distributed by the San Francisco News Company all over the Pacific Coast."

"Can you not dictate for me a letter or statement concerning the conditions in Oakland and vicinity that will do good for the present and future for you and the cause?"

"I have been delighted to come in touch with your great spirit again and to see how nobly and completely you have risen to the great occasion in which you have played a part. I am proud to be your friend."

"The quotation in the 'Examiner' of Los Angeles to which Rev. Mr. Mills refers in the above are the following: 'One of the most touching features of our work was the fact that the Relief Corps of Oakland has been rendered by the direction of the Rev. E. E. Baker and Mayor Mott, to obtain great men fitting perfectly into great places, and this, too, when it has been impossible to this hour for Oakland to obtain anything like a proportionate or adequate share of the supplies and funds shipped from all points, but consigned to San Francisco.'

ARE MARRIED.
W. B. George, a prominent mining man of San Jose, was married to Miss Lillian Hennelly of San Francisco, by J. W. Horn, pastor of the South Meth-

MORE FOOD NEEDED BY SAN FRANCISCO

SAN FRANCISCO, May 4.—When the finance committee met yesterday afternoon Chairman James D. Phelan read a telegram which was later sent to Secretary Taft. Any rumors of lack of harmony between the local citizens' committee and the War Department because of the disposition of the funds appropriated by Congress were dispelled by this message, which read as follows:

"San Francisco, May 2, 1906.—Hon. W. H. Taft, Secretary of War, Washington, D. C. May 1 received. Finance Committee directs me to acknowledge the same and to state that it fully understands the situation with which you are confronted and your authority in the premises. We have only to renew our thanks for the prompt manner in which you meet our needs without even waiting for the action of Congress, and we plainly see that no disbursement of funds can be made except through the regular government channels. The only advice we previously received was that Congress had voted large sums of money for San Francisco, and the impression was abroad that it would be disbursed by local authorities.

GREAT AID GIVEN.

"The army organization under General Greely has given us inestimable aid and has co-operated in systematizing the work of relief. We are under great obligations to the army and desire to express our acknowledgments. There is perfect harmony of co-operation between the Governor, the Mayor, this committee, the army and the Red Cross.

"We will communicate with you from time to time as to the supplies most needed. We suggest the fund be credited with articles not needed, as certain quantities of tents and blankets, and that so far as practicable you expend funds in California to avoid the transportation cost and to circulate money where it is most needed for rehabilitation of business.

USE OF MONEY.

"Cash actually on hand less \$500,000 with drafts in process of collection, of which we will report further. Will also advise you to respective use of money at earliest possible moment. Meanwhile desire to say that we are entering on a period of unprecedented privation. The assessable value of the city's property will be reduced by about two hundred million, and the ability of the city government to maintain its institutions will be correspondingly decreased. Charitable in-

stitutions and hospitals depending on private contributions, paid patients and like sources of revenue are in absolute need and those who have no endowment will be charged on us. In many institutions many of their buildings are destroyed. The poor, the old and young create a dependent class which is augmented by the unemployed and certain classes of persons doing clerical work and engaged in domestic services. They will have to wait for the restoration of business houses and homes. The city with all its agencies has been destroyed and its manifold activities paralyzed. By limiting rations to women and children as measures of restoring business, the men will be required to seek work, of which there is much of a rough character in cleaning up the city and repairing it for reconstruction.

FOOD SITUATION.

"Apart from shelter, food and clothing, efforts will be made to restore the worthy to their employment. 'Dr. Devine and the committee are so engaged in the important work of systematic relief that these questions, becoming more necessary of solution every day, have not as yet been carefully worked out. We will be pleased to keep you fully advised in order that you may wisely direct the expenditure of your fund in your keeping.

"JAMES D. PHELAN, Chairman."

General Greely made a brief speech on the food situation. "I don't like to be an alarmist," he said, "but I want this committee to clearly understand what may happen in the future. I have free food on hand for just eleven days, and am receiving requisitions for sanitation and many other things. It is the question of food that must receive the most earnest consideration, not the clearing of streets. Some of the people are in a fearful condition. The army cannot furnish an ounce of food beyond that already purchased or in sight."

\$10,000,000 MISSING.

General Greely thought the existing conditions might be met by appealing to towns and cities to send supplies that are not immediately perishable. William F. Herrin of the Southern Pacific Company said such supplies would be carried free.

Dr. Devine remarked that there was a discrepancy of about \$10,000,000 between the reported subscriptions and the amount the committee has actually received.

Chairman Phelan mentioned that George Gould's contribution had been received personally and then included in the contribution of the New York Chamber of Commerce.

INVESTIGATE 'QUAKE AT U. C.

BERKELEY, May 4.—Under the able direction of Professor John Galen Howard, supervisor of architecture at the University of California, a squad of surveyors and construction experts are at work this week making a thorough inspection of all the college buildings. The investigation thus far shows that the University buildings at Berkeley suffered little damage from the earthquake. The report that Stiles Hall, the College Y. M. C. A. building, would have to be torn down, has been proved to be without foundation. A few hundred dollars in repairs will make the building as good as new.

The investigation is being carried on at the request of Building Inspector Bull of Berkeley, and will probably be completed this week. Although there is some question as to the extent of the town's jurisdiction in the matters pertaining to state property within its boundaries, yet it is well known that in this case the state property is being investigated on the request of the town inspector. Last week Inspector Bull requested Professor Howard to make an inspection of all the college buildings in order that he might be able to report on the same to the City Fathers and be prepared to take action if the occasion demands. But at present there seems to be little likelihood that any of the structures of the state institution will come under the ban of buildings condemned because of damage suffered as a result of the earthquake.

So far as the examination has gone, the local inspectors have found no serious damage to buildings. All chimneys are standing. The miraculous escape that the college buildings had from the earthquake is said to be due to the old theory of the late Professor J. Le Conte, that the University is situated on an underground bed of lava and is therefore immune from all the effects of even the most destructive earthquake. The theory has most certainly been put to a most severe test during the past two weeks. Proof conclusive comes in the fact that the buildings at the State University are today standing in as good condition as they were a month ago.

MOTHER GRATEFUL AT FINDING CHILD.

BERKELEY, May 4.—Mrs. C. E. Camp, who is now confined in the receiving hospital at Oakland, in a letter written to Berkeley residents for their efforts in finding her lost child, Blossom Camp, five years old, who had been missing for a week. The mother of the lost girl especially commends the untiring efforts of Mrs. Cameron of Oakland, and Mrs. Steele and Miss Phoebe Birney, of 2400 Durant, for their aid in the search.

CLUB MEMBERS TAKE VACATION.

BERKELEY, May 4.—The directors of the Twentieth Century Club are soon to have their last meeting. The club has adjourned until next fall, giving up all the social work and section meetings that were planned. A large number of the club members have been actively interested in relief work for San Francisco refugees.

THIS REFUGEE DEMANDS PIE

BERKELEY, May 4.—John McCarthy, a refugee from San Francisco, while sitting at the long improvised table under the oaks on the University campus this noon rapped twice on the unplanned planks with the heavy handle of his three-pronged fork and lustily called for a piece of cherry pie.

"I've been feedin' me face at this dump for two weeks, and in all that time I haven't set my lumps on a chunk of pie. An' to tink of the 6' million plunks they shipped to Frisco, an' no pie."

"Say, kid," he shouted to one of the Princeton girls, one of the fairest members of the exclusive college dramatic set, who was acting as waitress, "Come thro' w'it de pesty dough. I ain't seen a slab since de quake."

The fair co-ed fled in confusion. A National Guardsman patrolling the camp rushed in and seized the braying McCarthy and hustled him to his tent in the Hillcrest tract.

SUPPOSED CROOKS INSPECT CHIMNEYS.

BERKELEY, May 4.—Two smooth individuals representing themselves as chimney inspectors have been making the rounds of the houses of Berkeley. The fashionable section of the town that they were inspecting was the home of the Kennys. This gained them admittance to the homes, where they would pretend to inspect the chimneys and investigate other damage done by the quake. As the property owners were in a majority of cases, unacquainted with either Bull or Kenny, the pair had an easy time of it.

It is thought that the two men are crooks who visited the houses in order to make a diagram of them with a view of burglarizing the houses at some later date. Bull will make an effort to learn the identity of the pair and bring them to justice. He has solicited the aid of the police department.

PAY TRIBUTE TO DEPARTED GIRL.

BERKELEY, May 4.—A large number of friends and acquaintances who had known and esteemed the late Ann Laurentine Hansen, gathered yesterday afternoon to pay their last respects at the bier of the young woman. The funeral services were conducted from the home of her parents at 2612 Warring street. The Rev. Dr. Laplace of the First Presbyterian Church conducted the services. He spoke briefly, but touchingly, on the good that Miss Hansen had accomplished in her brief stay on earth. Beautiful songs were sung by the girls of Miss Hansen's Sunday school class which she taught at the First Presbyterian Church. The numbers included the "Rock of Ages," "Jesus, I Come," and "Saved by Grace." They were rendered under the direction of Mrs. Charles Newhall. The casket was completely covered by many beautiful floral offerings. The interment was in the Mountaineer cemetery, and the remains were borne to their last resting place by former associates and friends of Miss Hansen.

DEPOSITS INCREASE.

BERKELEY, May 4.—F. M. Wilson, vice-president of the First National Bank, reports that since the fire in San Francisco the deposits in the bank have increased \$87,000.

There is a lot of sentiment in the squeeze of a hand by the right person.

CHINESE ARE TREATED WELL

BERKELEY, May 4.—The reports current to the effect that the Chinese refugees from San Francisco were receiving bad treatment at the hands of the local relief committees has been proved to be without foundation as far as Berkeley is concerned. The Chinese have fared as well as the other refugees. Two large apartment houses in the best part of town have been placed at their disposal, and the tenants are bountifully supplied with food by the relief committees. Special care has been taken to give them the kind of food they desire, rice and tea being the main essentials. Some of the white refugees have been denied rice and tea in order that the supply for the Chinese members of the refugee colony could be kept up. It has been said that the committee in charge of the Chinese have berded them together without paying any attention to their comfort. There is no cause for complaint from this source, for, in fact, the Chinese are desirous that they be allowed to congregate in one section of the town.

Had a Close Call.
"A dangerous surgical operation, involving the removal of a malignant ulcer, as large as my hand, from my daughter's hip, was prevented by the application of Bucklen's Arnica Salve," says A. C. Bucklen of Miletus, W. Va. "Persistent use of the Salve completely cured it." Cures Cuts, Burns and Injuries. 25c at Osgood Bros. druggists, Broadway, corner 7th and Washington, corner 12th.

APPOINT MAYOR MOTT MATRIMONIAL AGENT TROOPS TO LEAVE

Marriageable ladies and ladies who
want to marry may find it to their ad-
vantage to send descriptions of their
charms to Mayor Mott, at the city hall,
because that official is daily in receipt of
letters from men who are seeking part-
ners to share their joys.

One of these correspondents is J. M.
Myers, 967 Columbia street, San Diego,
Cal. Mr. Myers is not an expert in pen-
manship or orthography but there is no
mistaking his purpose in the letter which
he has just sent the mayor and in which
he expresses himself as follows:

"I want a nice respectful lady with
dark hair and about 150 pounds in
weight. I don't want one for hard work
the one that is willing to work so she
will do her own housework and be
good and kind disposition so we
can have a good and pleasant home one

that will be true to me that I can return
the same to her I am 40 years old and
happy I want one that is willing to live
on a farm I think if you would send
some of them down here to San Diego
they could find homes."

This missive is in a business hand
and comes from George H. Harris, 64
Rush street, Chicago.

"I would be pleased," he writes the
mayor "to have your aid in being put
in communication with some worthy pro-
spective young lady under 25 who is of
good family and is willing to come to
Chicago and be married on arrival. Am
a single man of 31, tall and hold a good
position. If this should meet the ap-
proval of an estimable lady please wire
me at once and will forward railroad
fare."

Mayor Mott has not much time to de-
voted to the business of a matrimonial
agent but he does not want to fail to
do something which would bring loving
hearts together.

ALAMEDA, May 4.—The Seventh Reg-
iment Band held an open-air concert
last night at the camp of Company D,
Seventh Regiment, N. G. C., which has
been stationed in this city since the San
Francisco disaster. Residents turned out
in large numbers, as well as the refu-
gees, whose hearts were gladdened by
the stirring music.

Besides the band music, solos were
rendered by the famous Seventh Regi-
ment Glee Club, which is made up of
the following members of Company D:
corporal Ludden and Privates Powers,
Palmer, Anderson, Welsh, Afterbaugh
and Stewart. The songs were greeted
with applause.

ORDERED HOME.

Orders have been received by Captain
Stephens of Company D to make pre-
parations to leave for home next Wed-
nesday. This order will affect the
whole Seventh Regiment, which hails
from Southern California, and the ma-
jority of which is in Oakland.

The reason for the sending home of the
State militia is the fact that the Army
will take control of the whole situation.

FOBHAY COMING TO TAKE CHARGE.

One of the relief committees which has
done effective work during the strenuous
times of the past two weeks is the Fra-
ternal Brotherhood Relief Committee,
with headquarters at Herald & Orme-
by office, corner Thirteenth and Broad-
way. This committee, immediately after
the earthquake, established a relief bu-
reau and in a quiet way took care of its
several hundred members from San Fran-
cisco.

The First Eighth M. E. Church, on
Thirteenth street, near Telegraph ave-
nue, was placed at the disposal of the
committee by Rev. J. W. Horn, where
many refugees were housed and fed.
Through the efforts of Mr. Frank Herald,
chairman of the relief committee, scores
of members have been enabled to secure
transportation and positions as well as
the necessities of life.

Prof. J. A. Foshay, Supreme President
of the Fraternal Brotherhood, and until
recently superintendent of schools in Los
Angeles, will be in Oakland soon to take
further charge of the work.

DEATH OVERTAKES TWO.

Mrs. Gretchen Hayden, a widow,
aged 85 years, died this morning at her
home, 1638 Ninth street, Alameda. She
had resided in California fourteen years.
Richard J. Maher, aged 19 years, died
last night at the home of his parents, 879
Fifty-fourth street.

the Best of "Everything for the Printer."

MELROSE HAS WORKED HARD

MELROSE, May 4.—The repair of
broken chimneys is going on on all
sides, and, as these include nearly all
the damage done, Melrose will soon
show but few signs of the great earth-
quake.

RELIEF WORK.

The Melrose Relief Committee, under
the energetic chairmanship of David
Williams, principal of the Melrose
School, has striven to do all that it
could for the refugees from the San
Francisco fire. Its first work was the
gathering of a load of provisions for the
refugee camp at Fruitvale and in this
it met with a hearty, generous response
from the townspeople. Since then it
has worked to aid the many fire vic-
tims who have come here and are
camped in shacks and tents or crowded
upon their friends.

About forty families, numbering some
two hundred persons, have thus been
assisted to gain a foothold again. G. A.
Taylor generously turned his office over
to the committee for use as headquar-
ters and relief station and Mr. Mowth,
P. M. Holst and others furnished valu-
able assistance by donating the use of
teams and wagons.

IMPROVEMENTS.

Work on the Oakland Chemical Com-
pany's plant on the site of the old Mel-
rose Smelter is making good progress,
and much other building is being done.
A big tract near the High School site,
at the intersection of Bryant avenue
and the Boulevard, is being graded and
prepared for the market.

The Southern Pacific Company has
put in a fine concrete bridge where its
line crosses the creek at High street,
and at Melrose Station a large force of
men are engaged in enlarging the big
concrete pipe culvert that carries the
water of a small creek underneath the
main line and the freight sidings. In
the handling of both passengers and
freight this station is daily increasing
in business and importance.

The engineers are now setting stakes
for the sewer system and it is hoped
that the actual work will soon com-
mence.

TO ADVERTISE.

At the last meeting of the Improve-
ment Club Messrs. McDonald and Tay-
lor were appointed a committee to ad-
vertise Melrose.

NEWARK SHOPS ARE MOVED TO SAN JOSE.

NEWARK, May 4.—Messrs. Lovejoy,
Louis Stoppel, Byron Terrill, Thomas
Fowler and others will go to San Jose
to the railroad shops, in that city, the
machinery and plant of the Newark
shop being removed there.

The broad gauge cars commenced run-
ning last Sunday.
The slight shock of earthquake at about
10 p. m. Tuesday revived the terror of
the nervous ones, who hoped the worst
was over.

NOTES.

John and Milton Downing, who had
positions in San Francisco, will remain
here for the present, and work in James
Graham's foundry.

The Misses Maud and Christie Con-
and will visit their father here for a
short time.

Mr. and Mrs. H. H. Sanborn and Mrs.
James Flaherty visited San Francisco on
Monday.

Mr. and Mrs. W. Arthur Pratt have
removed to Oakland. Mrs. Pratt was a
prominent member of the Ladies' Guild
of Centerville, and will be much missed
by that body.

PRICE AT WHICH LIME IS SELLING.

Complaint was made to Mayor Mott
yesterday by the Building Trades Coun-
cil that dealers in lime in this city had
doubled the price of the material. It was
shown that, until a few days ago, lime
sold for \$1.65 per barrel, and the asser-
tion was made that \$3.25 was now de-
manded for it.

Today, the Western Fuel Company, by
way of reply to reference to the sub-
ject in THE TRIBUNE, wrote to Mayor
Mott to the effect that the rates charged
by that concern for the commodity in
question was as follows: Common lime,
\$2 per barrel; Diamond lime, \$2.25 per
barrel.

CITY TREASURER WILL RECEIVE TAXES.

The office of the City Treasurer is
now opened daily, mainly for the pur-
pose of issuing duplicate tax bills to
people who lost their original bills in
the San Francisco fire. People, how-
ever, who desire to pay their taxes will
be allowed to do so, though receipts will
not be issued on checks. The checks
will be simply received for collection.

ASTOR'S SON MARRIED.

LONDON, May 4.—Mrs. Neenie Land-
horne Shaw of Virginia, and Waldorf
Astor, eldest son of William Waldorf
Astor, were quietly married at All Souls'
Church, Langham place, London, this af-
ternoon, by the Rev. Francis Scott
Waldron, M. A., the vicar.

Neither William Waldorf Astor nor Mrs.
Langhorne, respectively the father of the
groom and of the bride, were present,
both being too ill to attend the cere-

U. C. OFFERS LAW LIBRARY

BERKELEY, May 4.—On account of
the loss of the law libraries and dif-
ferent individual collections of law
books there is a great scarcity of
works in the legal line. There is, how-
ever, a library of six thousand law
books at the university library, and
President Wheeler, of the State insti-
tution, has, in an open letter, invited
the legal profession to take advantage
of the only large law library around
the bay. His complete offer follows:

"To the Members of the Legal Pro-
fession of San Francisco, Oakland,
Alameda and Berkeley—Dear Sirs:
The University of California calls at-
tention to the existence, in its general
library, at Berkeley, of a well selected
law library connected with the De-
partment of Law, of about six thou-
sand volumes, which it gladly and
freely offers for the use of all attor-
neys desiring the accommodation. The
law library contains the most of the mod-
ern English Reports, the English Re-
print, many of the old English Re-
ports, in addition to the Reprint, the
entire Reporter System, a number of
the leading State reports, including
California, and notes on California Re-
ports, Oregon, Washington, Montana,
Massachusetts, Illinois, New Jersey,
Michigan, part of New York, Vermont,
Ohio, Pennsylvania and Nevada; the
United States Supreme Court Reports,
Federal Reporter, Lawyers' Reports An-
notated, American Decisions, Ameri-
can State Reports, American and En-
glish Encyclopaedia of Law, Century
Edition of the American Digest and
Encyclopaedia of Pleading and Proce-
dure, United States Statutes and Sta-
tutes of California, in addition to
treatises on Civil and Foreign Law.
There is also a large number of mod-
ern editions of leading text books and
the leading law books returned to its
depository for attorneys desiring to use the
law library.

"The library will be open the entire
seven days of the week, as well as in
the evenings, as a special accommoda-
tion for attorneys desiring to use the
law library.
Very sincerely yours,
"BENJAMIN IDE WHEELER."

AGED ALAMEDA PIONEER GONE

ALAMEDA, May 4.—The death Wednes-
day of Samuel Appleton Scott marked the
passing of one of California's pioneers.
Deceased was 80 years of age, years that
have seen the upbuilding of the State of
California. Deceased passed away at his
home, 1424 1/2 Charles street, where he
had resided for about two years. The
funeral will be held Saturday and the re-
mains will be sent to Napa for interment.
Mr. Scott left his native town, Homer,
Locking county, Ohio, in 1847, going to
the Atlantic Coast. In 1848 he sailed for
San Francisco, and around the Horn
taking seven months. He landed in
San Francisco when it was but a tent
city. He lived to see it grow to a mag-
nificent city, and returned to its
original state by the devastating fire of
April 18, 1906.

Deceased then went to mining in Cal-
ifornia and struck a fortune. Upon
securing his fortune, he went west where
he spent his wealth lavishly, returning to
California to recuperate his vanished for-
tune.

He went to Napa county, where he be-
came prominent in politics. He was
chairman of the Republican County Com-
mittee during one campaign. He held a
government position for sixteen years,
being identified with the revenue service
in the capacity of a gauger.

He went into the mercantile business
in Napa and was recognized as one of
the prominent merchants of Napa county.
Some two years ago he came to Alameda.
Deceased leaves a wife, Mrs. Carrie C.
Scott, and two sons, Frank S. and Sam-
uel F. Scott.

WANT ANOTHER MATERNITY HOSPITAL.

The hospitals in this city which main-
tain maternity wards have now all the
patients they can accommodate and there
are applicants for admission whose re-
quests have to be denied.

Many of these applicants have recently
arrived in this city and are dependent
upon the care and attendance of stran-
gers.

This condition of affairs has been
brought to the attention of a number of
charitable ladies of this city as also to
Mayor Mott, and these have decided to
call a meeting of sympathetic people for
the purpose of determining whether or
not another maternity hospital cannot be
established in this city.

GETTING STATISTICS.

SAN FRANCISCO, May 4.—Profes-
sor H. Morse Stephens of the Uni-
versity of California has assumed
charge of the gathering of statistics
of the fire and earthquake. He con-
sidered the work of great historical
value, stating the catastrophe is one
of the great calamities the world has
known.

BOY MISSING.

BERKELEY, May 4.—Mrs. E. Gib-
lin, of 2228 Telegraph avenue, reports
that her son, aged seven, is missing.
He is of light complexion, with blue
eyes. At the time he was lost he wore
a blue sailor suit and a brown leather

H.C. Capwell Co.
THE LACE HOUSE
1278 AND WASHINGTON STS.

The Right Store for Everybody.

Right because its principles are right. For sixteen years we have been working to obtain and deserve the confidence of the people of Alameda county; steady increase of business justifies us in saying that we have succeeded. There are now thousands of new people amongst us, and thousands more in San Francisco who will find it more expedient at this time to shop on this side of the bay. To all of these we extend the same welcome and guarantee the right treatment that has distinguished our dealings with those who have known us for years. Our store is filled with the right kind of goods, they are rightly priced and we are always ready and willing to refund money when for any reason customers may desire it.

Ladies' Stylish Suits

The department—temporarily removed to the spacious, easily reached, well-lighted basement—is full of just those up-to-date garments that ladies are now seeking. They represent the best that the East has produced this season; plenty of the right colors, in the correct Eton, Pony and Jacket styles—prices—\$8.50, \$12.50, \$16.00, \$18.50 and to \$45.00.

MISSES' SUITS—Full of that jaunty dash which is a fitting characteristic of American girls. The right mixtures and popular shades, and of course every detail just what the style of the hour demands, prices—

\$12.50, \$14.50, \$18.50 and to \$25.00

Walking Skirts

Summer styles in Alpaca, Panama, Broadcloth and a good line of mixtures, including plenty of light and dark grays, prices—

\$2.75, \$3.50, \$3.75, \$4.50 and to \$18.50

WASH SKIRTS—A good assortment of the most useful, durable and easily laundered kind. Crash linen, duck, plaid, etc., prices ranging from—

50c, 75c, \$1.25 and to \$5.00

SHIRT WAIST SUITS—Many pretty ideas in washable materials, neatly trimmed, some with embroidery and lace, others with fancy washable braids, well made and of guaranteed wearing satisfaction, prices—

\$1.50, \$2.00, \$2.50 and to \$7.95

Ladies' Dusters and Auto Coats

Made with due regard to style, convenience and utility, prices—

\$1.75, \$2.50, \$3.50 and to \$9.50

Big Display of White Waists

There isn't an acceptable style missing—scores of pretty effects with open fronts or backs, short, three-quarter or long sleeves—all at 75c, elaborations, as well as the more plain styles, prices—

85c, \$1.00, \$1.25, \$1.75 and to \$18.50

ManKind Waists

The sensible kind, with outside pockets, collar and cuffs, prices—

\$1.50, \$1.75, \$2.50 and to \$3.25

Jap. Silk Waists

The daintiest of all, plain or trimmed freely with embroidery, tucking, motifs, lace and fancy stitching, prices—

\$2.50, \$2.75, \$3.50, \$3.90 and to \$9.50

75c yard

Colored taffetas, proved to give perfect satisfaction, full line of colors; 19 ins. wide—

75c yard

BRITAIN'S LEASE WORK

LONDON, May 4.—The British Ambassador at Constantinople yesterday presented a note to Turkey demanding the complete withdrawal of Turkish troops from Egyptian territory. The note is practically an ultimatum and constitutes Great Britain's last word on the encroachment of Turkey in the Sinaï peninsula.

The French and Russian Ambassadors at Constantinople are supporting the British contention. Should the ultimatum fail to have the desired effect the British Mediterranean fleet will take the measure so often employed by the powers in recent years as the result of disputes with the Sultan, and a naval demonstration, it is anticipated, will quickly bring about the evacuation of the Tabah territory, which Great Britain contends is unquestionably Egyptian territory.

MT. TAMALPAIS NOT DAMAGED.

Mount Tamalpais was not damaged by the earthquake. A circular just issued by the Mill Valley and Mount Tamalpais Railway says:

"Owing to the reports which have been circulated regarding the damage to Mount Tamalpais, we desire to state that the Mount Tamalpais Scenic Railway was not damaged at all. The tower of Tamalpais, as the summit, is intact and open as usual. There is no advance in rates."

NARROW GAUGE RAILROAD

In all the disturbance resulting from the tremendous pressure upon the operating facilities of the Southern Pacific to get refugees out of town and supplies into town, meeting an emergency in transportation way never before presented to any railway company there was one branch of the service, one of the company's lines, that meandered on its way in all the peaceful serenity of natural conditions. Superintendent Scott,

in a circular this morning concerning the change from narrow gauge to broad gauge of the South Pacific Coast Railway between San Francisco and Santa Cruz, announces that the horse car line between Newark and Centerville, handling freight and passenger traffic, continues in service cars to leave Centerville for Newark at 6:55 a. m. and 3:45 p. m. and Newark for Centerville at 8:20 a. m. and 6:50 p. m. under the new schedule. Freight trains consisting of the extra team of horses and any freight cars that may come along, will run extra at any time that does not interfere with passenger traffic.

The old narrow gauge line between Santa Clara and San Francisco via Alameda mode, will hereafter be under the jurisdiction of Superintendent Scott at Oakland pier, being combined with the western division. The train service of the Niles route to San Jose and the new broad gauge route via West San Leandro will be adapted each to the respective advantages of the two communities concerned. For the present, act through O. K. Cushing of the Alameda passengers who have been accustomed to taking the narrow gauge at Alameda for San Jose and intermediate stations will now have their tickets honored via Oakland pier or may go over to Fruitvale and take the car thence.

Up to yesterday no narrow gauge service had been resumed between Alameda and San Francisco but boats are operating on the creek route, at the foot of Broadway, to San Francisco. Three boats are in constant service upon that line from 7 a. m. to 7 p. m., more especially for the accommodation of teams and freight.

Trains running from San Francisco to San Leandro go within half a mile of Wright station on the old narrow gauge line and the train arriving at San Francisco at 5:45 p. m. starts from the same point. Train over the same route leaving at 4:20 p. m. runs to Los Gatos and the one arriving in San Francisco at 8:45 a. m. comes the same run.

Citizens of foreign countries needing tickets home or relief should apply to their respective consuls who will in turn, act through O. K. Cushing of the Alameda passengers who have been accustomed to taking the narrow gauge at Alameda for San Jose and intermediate stations will now have their tickets honored via Oakland pier or may go over to Fruitvale and take the car thence.

CONDUCTOR WAS WEARY OF LIFE

FALLON, Nevada, May 4.—While alone last night on his ranch about three miles south of this place, W. L. Trevers committed suicide by shooting himself through the head. The act is believed to be due to financial trouble. Besides his parents, he leaves a wife and two small children, all of them living in Fallon when he fired the fatal shot.

He was a member of the Knights of Pythias and was formerly in the employ of the Southern Pacific as a freight conductor. The deceased was thirty-eight years of age and a native of Missouri but had lived in this vicinity since early boyhood.

STOMACH ILLS ARE SOON FORGOTTEN

When Hostetter's Stomach Bitters is used promptly at the first symptom, no wonder so many people use it in preference to anything else. Then there is a 53 years' record of cures back of it, too, which ought to appeal to every man or woman. One bottle of

LICK HOUSE SITE NOT FOR SALE

SAN FRANCISCO, May 4.—Rudolph Sprackels and his associates, who own the Lick House site on Montgomery street, between Post and Sutter have been offered \$200,000 more than they paid for the lot and hotel building about two years ago, and have declined to sell. This offer is a strong indication of the strength of downtown realty values, and shows that owners of property downtown have every confidence in the early rehabilitation of San Francisco. It was about two years ago that Rudolph Sprackels, J. D. Phelan and William and Thomas Magee formed a syndicate and purchased for \$3,810,000 several pieces of San Francisco real estate from Mrs. Hermann Oelrichs and her sister, Mrs. William K. Vanderbilt Jr. One of the realty pieces included in this deal was the Lick House lot and building. It went into the deal at a figure amounting to \$800,000.

Six months ago Rudolph Sprackels, who heads and now has the largest interest in the syndicate, was offered \$1,550,000 for the Lick house, or an increase of \$750,000 over what he paid for it. He declined the offer. It is the same party who has now renewed his offer of \$1,550,000 for the property, and has had it declared by Mr. Sprackels.

The latter and his syndicate associates consider the Lick House lot a valuable downtown site, and they intend to build on it at an early date. They have not yet decided what kind of a building they intend to erect, but when they do get ready to build they intend erecting a modern structure that will be an architectural ornament to New and Greater San Francisco.

OLD MAN IS WITHOUT HOME

George Washington Shuttles, an old man who was deprived of a home by the fire which wiped out so much of San Francisco, including the King's Daughters' Home on Francisco street, was one of the pensioners at the public table who asked aid at the Receiving Hospital this morning. But what he wanted was not such as the Receiving Hospital can give.

"I am 95 years old," he said falteringly as he stood in front of the steps and leaned on his crutches for support. "What am I to do? Where am I to go? I came back from the County Hospital this morning. The food they gave me there was all right enough in a way, but I couldn't stay there."

Persons who were in the habit of visiting the King's Daughters' Home on errands of mercy some years ago, remember the old man well.

BUYS PROPERTY ON TENTH STREET.

One of the sales of downtown realty resulting from the present active demand is that of a brick block on Tenth street, between Broadway and Franklin street, the property of John Kane. The buyer is T. C. Day of San Francisco, who paid \$42,000 for the property. The sale was made by George W. Austin.

SAN FRANCISCO STATE NORMAL SCHOOL. The student teachers of the San Francisco State Normal School will meet in the common school assembly hall, corner of Belmont and Grove streets, Oakland, on Monday, May 4, at 10 a. m. The faculty will meet in the same place on Saturday, May 3, at 2 p. m. Students looking for rooms should see Mrs. Patterson, Saturday or Monday.

ARTESIAN WATER SUPPLY

SAN FRANCISCO, May 4.—The distance of the Spring Valley Water Company's water supply by the earthquake brought to light the interesting fact that there are sixteen private artesian plants in the city which will produce before the first of June an aggregate of 4,000 gallons of water daily. The average depth of the artesian water bed is said to be about 150 feet and the water supply contained in it is inexhaustible. The artesian bed is said to be the most important of the city's white sources of

W. E. DARGIE, President.

Business Office and Publishing House, 413-417 Eighth St., Oakland.

Belying Governor Pardee.

One of the most dastardly things that has come under our attention recently is a malicious and absolutely untruthful attack on Governor Pardee, printed in the Seattle Times. It is labeled "Special Correspondence from San Francisco," but bears all the earmarks of being the outgiving of a small though noisy clique of politicians who are engaged in selecting a Governor for the people of California, in the meantime letting others attend to the duties and offices of humanity in this hour of trial.

By innuendo, insinuation and implication the author of the letter to the Times seeks to convey the impression that there is friction between Governor Pardee and General Funston, Mayor Schmitz and Secretary Metcalf regarding relief measures, and a bungling effort is made to make it appear that the San Francisco relief and city officials are severe critics of the Governor. Nothing could be further from the truth. Governor Pardee has studiously avoided interfering with the local authority in San Francisco. In matters of official etiquette and precedence he has been singularly modest and unostentatious. He has striven in every possible way to assist and uphold the local authority, but never to supersede it or interfere with its functions and prerogatives.

The correspondent of the Seattle newspaper says the Governor has done nothing but seclude himself in the office of the Mayor of Oakland and do petty politics. Every person with any knowledge of what has transpired since the disaster occurred is aware that this is false in spirit and word—a lie out of whole cloth invented and circulated with malicious intent.

Governor Pardee has not done petty politics, or any other kind of politics during this crisis. The petty politics has been done by a coterie of Jim Crow politicians who have assisted nobody or anything, but who have attempted to sow discord and ill-feeling where harmony should prevail. The letter in the Seattle Times is the fruit of this effort to stab in the back a man who is doing his whole duty with all the energy he possesses.

Not for one moment has Governor Pardee been secluded or isolated from the public. He has been accessible at all times, and has given his undivided attention to alleviating distress and relieving an extraordinary situation. For days and nights together he scarcely slept. He kept a telegraph operator and half a dozen stenographers busy keeping up a correspondence relative to relief measures. He personally talked with hundreds of men daily, all within the hearing of others and entirely free from anything favoring of politics or secrecy. He personally visited and conferred with the civil and military authorities in San Francisco, and in no instance did he attempt to thrust his personality forward or to interject his official authority into the measures adopted by local officers and committees.

To see the Governor working tirelessly night and day to serve his stricken State, taking no thought of politics or politics, and then hear him charged with the offense of which his accusers are most flagrantly guilty is enough to arouse indignation in the minds of all fair-minded, truth-loving men. It is because Governor Pardee has done his duty so vigorously and efficiently that he is now being traduced. Petty politics prompted this attack on him. The attack is base because it is a deliberate falsification of the truth put forth to deprive a capable and zealous official of the honor he has earned by rendering the public splendid service when the service was most needed.

Adjusting Fire Insurance Risks.

Nobody expects the British insurance companies to pay losses occasioned directly by earthquake, and therefore nobody can blame them for disclaiming a liability they never assumed. To that extent the public sense of justice will go with the companies. But it is to be hoped that behind the declaration there is no disposition to use the earthquake as a pretext for not equitably adjusting and paying the fire losses in San Francisco.

It must be admitted that there was some loss from seismic shock, but it was a mere trifle compared to the loss from conflagration—perhaps not more than one per cent, generally speaking, of the value of insured property destroyed by fire. But this slight earthquake loss may be made the pretext for long harassing delays and vexatious litigation, which would be peculiarly calamitous and unjust at this time.

It is all-important to the business men of San Francisco that fire losses be adjusted and paid promptly. Adjustment will obviate many embarrassments and speedy payment will supply the funds immediately necessary for rebuilding. If any of the insurance companies should employ technical pretexts to evade liability or stave off payment of the risks they have assumed it would be most unfortunate for San Francisco, but in the end it would be still more unfortunate for the companies adopting the policy. For business men the world over want insurance that insures, not an elastic promise which can be construed as a plea in avoidance of liability.

So far, we have seen no evidence that the underwriters are disposed to be technical or unfair. Their general attitude has been entirely commendable, and it must be frankly stated that this attitude has been no mean factor in allaying apprehension and inspiring hope and confidence. It must be borne in mind that the insurance companies have suffered extraordinary losses, and are among the common sufferers from the San Francisco disaster. They cannot, therefore, be expected to be quixotic in the payment of risks not rightly chargeable to them. What we have a right to expect of them, and all we have a right to expect, is that they will be fair and just in the adjustment of claims and will pay losses promptly after adjustment.

And they are entitled to treatment equally as fair and reasonable as we expect of them. If the policyholders and underwriters approach each other in a mutual spirit of fairness, we are confident the process of adjustment will be mutually satisfactory and liquidation prompt. In some cases mutual concessions will be necessary if delays and litigation are to be avoided, but no concession should be demanded with intent to wring unjust advantage from extremity and unfortunate circumstance. If any company should unwisely undertake to press an unfair advantage of business exigency or urgent necessity it will suffer in reputation far more than it can gain by scaling down policies. It is gratifying to note, however, that no evidence has yet been given of any such intention.

Major Frank W. McLaughlin of Santa Cruz, formerly chairman of the Republican State Central Committee, was so pleased with the editorial printed in THE TRIBUNE under the caption of "San Francisco Will Rise Again," that he had 500 copies of it struck off on slips for distribution among his friends and to send East to acquaintances. This is only one of many testimonials being received at this office of the appreciation in which THE TRIBUNE'S efforts to promote the rapid rebuilding of San Francisco are held.

One Hundred Millions Worth of Hope.

E. H. Harriman spoke sagacious words when he advised the citizens of San Francisco to go to work clearing away the ruins and preparing for the resumption of business without waiting for financial arrangements to be completed. Nothing is truer than that work gives confidence to the worker and inspires confidence in the onlooker. It is equally axiomatic that inaction chills hope and dulls the spirit of endeavor.

Mr. Harriman himself gave a magnificent and courageous evidence of his faith in the future of San Francisco by pledging himself to secure financial backing to the extent of \$100,000,000 for the reconstruction of the city. This should give everybody heart to go to work with zeal and energy. It is the pledge of a man who has never yet failed or broken his word. It is ample assurance that there will be plenty of money to finance the rebuilding of the metropolis of the Pacific Coast.

In the meantime the thing to do is for everybody to pitch in and work as they never worked before. Pitch bricks if you can't do anything else, as Mr. Harriman said, and it will astonish those who try it to see how much they can accomplish and what interest the useful exercise will develop. Activity develops the spirit of optimism, and optimism is the philosophy of hope, of cheer, of noble deeds and all things which grace and enrich civilization.

It is good to find a man like the President of the Southern Pacific offering it in \$100,000,000 lots to the people of San Francisco. It is like the cloud and the pillar of fire which led the Israelites into the Promised Land.

San Francisco's woes multiply. The spring poets are now firing broadsides of verse at the stricken city.

SAN FRANCISCO.

By Mrs. V. Mott Pierce, nee Marion Young.

Oh, land of sunshine and of flowers,
Oh, glowing Golden West,
My heart is numb with anguish
And sorrow tears my breast
To see thy sun kissed tresses
Turned to an ashen gray,
Thy head bowed to the blackened earth
Where fruitful opulence so late held sway.
Oh, pearl of the Pacific wave,
Thou Goddess rising from the sea,
Stricken and withered in thy prime,
My soul goes out to thee.

Thy Golden Gates were ever opened wide
To welcome stranger to thy verdant shore,
Where generous hearts and outstretched hands
Claimed him a kinsman forever more.
To enter once thy magic gate
Was to feel the subtle winning charm
That pervades the air around thee
Like a soothing, healing balm.
It softly steals upon the sense
Like a rare and aromatic spice,
Or the blossoming scent of orange groves
Within thy earthly Paradise.

The sun pale rising on his course,
Through heaven's boundless space,
Gleams with a brighter glory
When to thee he turns his face;
O'er thee his shimmering robes are flung.
His streaming pennons bright,
With roseate kisses on thy brow
He smiles a fond goodnight;
Then in his flaming chariot,
With prismatic banners dressed,
He sinks to sleep in the tender arms
Of his dear beloved West.

Oh, brilliant land of girlhood days,
Dear sunny flower-decked slopes,
Though miles of desert stretch between,
And blighted lie your hopes,
We love thee—how we love thee,
And will, while life shall last,
E'en though thy beauty perish
And be withered in the blast.
Undaunted will thy native sons
With hearts of oak, courageous, true,
Lift up thy drooping golden head
And crown thy Queen anew.
Tried in the crucible of fire,
More beautiful shalt thou rise
From thine own ashes, Phoenix like,
Unto the smiling skies.

A gem of the Pacific seas,
A monument to those
Who stoically fought the fight
Through fire and famine's woes.
Brave sons and daughters
Of a brave, fair clime,
Within the halls of fame
Shall ring the glory of your deeds,
And honored be the name
Of that dear land forever,
Where hearts beat strong and great,
That City of the Golden West,
Beside the Golden Gate.
He loveth whom He chasteneth—
Yea, even by the rod;
Look upward through the darkness
And behold the face of God.

SOME PASSING JESTS.

Morgiana had just sealed up the forty thieves.
"And yet," she sighed, "I'll bet it will be my fate to marry a man who is afraid to look under the bed."
Thus we may perceive that she had a rare insight into life.—
New York Sun.

"In order to develop stability a man must learn to say 'no,'" said the moralist.
"Yes," answered Senator Sorghum. "Especially when some one hints that he ought to resign."—Washington Star.

"He's proud of his ears prematurely gray. He thinks that calamine effect over his ears makes him look poetic."
"Well, it does remind me of a poem."
"What poem?"

You Cannot Buy Purer Whiskey

than HAYNER, no matter how much you pay or where you get it. We have been distilling whiskey for 33 years. We have one of the most modern and best equipped distilleries in the world. We know of nothing that would improve our product. Perfection in the distiller's art has been reached in HAYNER WHISKEY, which goes direct from our distillery to YOU, with all of its original purity, strength, richness and flavor. It doesn't pass through the hands of any dealer or middleman to adulterate. You thus save the dealer's big profits. You buy at the distiller's price, at first cost. Don't you see the economy in buying HAYNER WHISKEY, as well as the certainty of getting absolutely pure whiskey?

United States Senate, Washington, D. C.
I have used HAYNER WHISKEY for medicinal purposes in my family and have found it very satisfactory. I believe it to be a number-one medicinal whiskey.
Thomas G. Schmitt, U. S. Senator from Virginia.

BOYCOTT GREEDY

SAN FRANCISCO, May 4.—Former Chief of Police Wittman, chairman of the committee on the restoration of retail and wholesale trade, reported to the citizens' committee yesterday morning record of all of those who were selling their property at exorbitant prices. The committee announced that the citizens' committee would be made public. This announcement that the people who sought to profit by the city's calamity would be branded throughout the community was greeted with cheers. Mayor Schmitt announced that the City and County Assessor was also keeping a list of those who charged exorbitant rents for building and leases, and would double or treble their assessments according to the amount of revenue which was being derived. This announcement was also greeted with cheers. The committee agreed that rapidly must be stopped by public opinion, backed by a sort of a "boycott" in future.

MECHANICS IN GREAT NUMBERS

SAN FRANCISCO, May 4.—According to P. H. McCarthy, president of the building trades council there is no dearth of mechanics in the city at the present time. Between 2000 and 3000 men are at work on the city's buildings. McCarthy said that the council had no registered, and this number, he says, will be more than ample to handle current operations. He advises against mechanics coming to San Francisco, principally for the reason of lack of employment and unsuitable arrangements for the carrying of their tools. Through the State and national associations, he claims, he will have little difficulty in bringing builders to the city as they are needed. The principal work now in progress is rebuilding, and this will not take long to complete. A full list of the building firms is being compiled, and will be published in the near future. Regarding wages and hours, McCarthy was pronounced in a statement that the Council would not ratify the slightest change of the previous standard, and no advance in wages would be taken of the people who contemplated reconstructing buildings within the near future.

BOARD OF HEALTH HOSPITAL AT WORK.

Nearly one hundred patients are now installed at the Board of Health Hospital at the Oakland Traction Club rooms at the general offices of the Oakland Traction Company at Twenty-second and Grove streets, all of whom are receiving the best of care. More work has been done at this hospital since the disaster of two weeks ago, than in any other hospital in the city, and the hospital is now in splendid working order, with a full corps of surgeons and nurses. The club rooms were turned over to the Oakland Board of Health by the Traction Company as soon as it became evident that hospitals would be needed to care for the injured refugees from San Francisco, and the institution was at once placed under the charge of Dr. J. P. Lilley. G. W. Bailey, formerly druggist at the County Infirmary, was given the position of steward, and a full corps of volunteer nurses has been in attendance at all times. The men's department of the hospital is in charge of Miss Connelly, a graduate of East Bay Sanitarium, and Miss Cogge, a graduate of the Waldeck Sanitarium of San Francisco, is at the head of the women's department and the maternity ward. There are now nine maternity cases at the hospital. The culinary department is in charge of Miss Caroline Madala of this city, who is assisted by a number of young women who have volunteered their services in the time of general distress. In addition to the staff of nurses who have been at the hospital since its opening six White Cross nurses who were sent to San Francisco by the Chicago Relief Committee, have been directed by Dr. Lilley, by Major Farrell, who is in charge of the White Cross nurses at the Presidio in San Francisco. The infants' department of the hospital is in charge of Miss Gray, the surgical department in charge of Miss Burton, and Miss Bogo has supervision of the men's ward.

On the Shelf

of every home in the United States there should be found a bottle of Shiloh's Consumption Cure, the Lung Tonic, for Coughs, Colds and all irritations of the throat, lungs and air passages. It is easy to take, gives instant relief and cures permanently.

Generation after Generation

has pronounced Shiloh to be the safest, sweetest, quickest and best family cure for Colds and Coughs. Nothing has ever been found to take its place in the home. Try Shiloh and be cured, or say you were not cured. It is a family cure. Let this fact be known to all. Mrs. L. Jones, of Hingham, Minn., says: "We have used Shiloh for Coughs, Colds, Croup, Sore Throat, Hoarseness, Bronchitis or Whooping Cough. My oldest son was almost choked. The doctor could not cure him. He used bottles of Shiloh and was completely cured. It was no equal."

SHILOH

OSGOOD BROS., 12TH AND WASHINGTON AND 7TH AND BROADWAY

HIS LEAP IS COSTLY

SAN FRANCISCO, May 4.—In his anxiety to get on board the ferry-boat Oakland on its 10:20 o'clock trip for this side of the bay yesterday morning, Mr. Gerriety, of 1404 Church street, tried to jump to the boat with his bicycle after it had already started, with the result that the bicycle now lies at the bottom of the bay, while he is suffering from some bad lacerations of the scalp as the result of a fall. He jumped from the apron and landed on the deck of the boat, but his bicycle caught him and he fell. He was taken to the Harbor Emergency Hospital, where his injuries were attended to.

MME. BERNHARDT IS COMING HERE

Madame Sarah Bernhardt is to appear four times before Oakland audiences, and the joy of the public and the management is correspondingly great. The famous actress is to come to Ye Liberty Theater for three nights and a matinee, beginning Monday evening, May 14.

On Monday evening Madame Bernhardt will be seen in "La Sorciere." Tuesday evening she will play "La Tosca." Wednesday matinee, "Camille," and Wednesday evening, "Sapho." Madame Bernhardt, on reaching Salt Lake City, decided to cancel her engagements west of that point, but she was finally persuaded to allow her bookings, with such exceptions as the San Francisco fire made necessary, to remain as listed. Mail orders for seats, addressed to Frank Graham at Ye Liberty theater, when accompanied by remittances, will be recognized in the order of their receipt. The prices are to be \$1, \$2 and \$3.

If You Don't Succeed the first time use Herbine and you will get instant relief. Herbine is a liver regulator. A positive cure for Constipation, Dyspepsia, Malaria, Chills and all liver complaints. Mr. O. C. Emery, of Emery, Texas, writes: "My wife has been using Herbine for herself and children for five years. It is a sure cure for constipation, and the medicine is substantiated by what it has done for my family." Sold by Weber's Drug Store, corner of Tenth and Washington streets. Patronize Home Industry. Auction Prices. In furniture. Corner 11th and Franklin streets. H. Schellhaas' store

ACCUSES COLLECTOR OF EMBEZZLEMENT.

H. W. Richardson, a milk wagon driver employed by John A. Bliss, proprietor of the Oakland Cream Depot, was arrested shortly before noon yesterday on a charge of embezzlement. Bliss charges that Richardson collected money which he failed to turn in. When arrested Richardson attacked Bliss who was a deputy sheriff, and who made the arrest himself. Bliss was charged at the police station with battery in addition to the charge of embezzlement.

OFFICE OF THE Assessor of Alameda County

POLL TAX NOTICE
Notice is hereby given that the State Poll Tax of two dollars for the year 1906 is now due, and payable at the Assessor's office, room one, Court House, or to a Deputy.
Sec. 3839 of the Political Code reads as follows:
Every male inhabitant of the State over twenty-one and under sixty years of age, except paupers, insane persons and Indians, must annually pay a Poll Tax of two dollars, provided the same be paid between the

FIRST MONDAY IN MARCH AND THE FIRST MONDAY IN JULY

Then it shall be three dollars.
Sec. 3846 of the Political Code makes it the duty of the Assessor to "demand Poll Tax of every person liable therefor, and on the neglect or refusal of such person to pay he must collect by seizure and sale of any personal property owned by such person."
Under Sections 425 to 435 every person who refuses to give his own name or the name of any person in his employ, or who in any manner obstructs the Assessor or any of his deputies in the collection of the State Poll Tax, is guilty of a misdemeanor, and liable to a fine of \$500 or imprisonment in the County Jail, or both such fine and imprisonment.
Under these provisions twenty-one or over sixty years of age are exempt. Poll Tax must be paid on demand.

HENRY P. DALTON

Assessor of Alameda County.
Oakland, California.

OFFICE OF THE Assessor of Alameda County

NOTICE TO TAXPAYERS

Oakland, March 5, 1906.
All Persons, Firms, Companies, Corporations and Associations are required to deliver to the Assessor's office, at the Court House, City of Oakland, County of Alameda, before or on the 15th day of April, 1906, a statement, under oath, of all the property, both real and personal, owned or claimed by him, her or them, or in their possession or held in trust for others, at 12 o'clock meridian on the

FIRST MONDAY OF MARCH 1906

In accordance with Sec. 3623, Political Code.
Every person who refuses or neglects to furnish the statement as provided for in Section 3623, Political Code, 1906, is liable to a fine of one hundred dollars and the value fixed by the Assessor on their property must not be reduced by the Board of Equalization.
All persons owning real estate that has been assessed in the name of the United States, or errors have appeared on their tax bills, are requested to call at the Assessor's office or notify the Assessor by mail on or before April 1, 1906, that the proper corrections may be made on the assessment roll for the year 1906.

HENRY P. DALTON

Assessor of Alameda County.
Oakland, California.

NOTICE OF SALE OF REAL ESTATE.

In the Superior Court of the County of Alameda, State of California.
In the matter of the estate of Joseph S. Barry, deceased.
Notice is hereby given that pursuant to an order of the Superior Court of the County of Alameda, State of California, duly given and made on the 14th day of September, 1905, in the matter of the estate of Joseph S. Barry, deceased, authorizing the sale, as a whole or in subdivisions, of certain real estate belonging to said estate, the undersigned, David F. Barry, the administrator of the estate of said deceased, will sell at public auction, on or after May 4, 1906, to the highest and best bidder, upon the following terms: Cash in gold coin of the United States, or its equivalent, to be paid at the time of sale and the balance upon confirmation by the above entitled Court, in full of the purchase price of said real estate, the undersigned, David F. Barry, the administrator of the estate of said deceased, will sell at public auction, on or after May 4, 1906, to the highest and best bidder, upon the following terms: Cash in gold coin of the United States, or its equivalent, to be paid at the time of sale and the balance upon confirmation by the above entitled Court, in full of the purchase price of said real estate, the undersigned, David F. TO ORGANIZE NEW CABINET IN RUSSIA

ST. PETERSBURG, May 4.—The immediate organization of the new cabinet is now anticipated. All the ministers are expected to have placed their resignations in the Emperor's hands. Beside M. Goremykin as Premier, the slate is said to include M. Stolypin, the governor of Saratoff, for Minister of the Interior; M. Kokovoff, for Minister of Finance; Prince Galitzin, Professor of Physics at the Academy of Science, Minister of Ways and Communications; M. Von Kaufman, a member of the Council of the Empire, Minister of Education; Prince Sheridanski Shastakov, Procurator of the Holy Synod, and M. Steglovoroff, Minister of Justice—all bureaucrats, but rather colorless. The future policy of the government is so carefully guarded that the papers are not permitted to say what the Emperor's plans are. The majority of the papers attribute the fall of the cabinet to the bad reception of the draft of the fundamental laws.

SHIPPERS MEETING

CHICAGO, May 4.—An important conference of the executive committee of the American Shippers' Association will be held here today. The result of this meeting will be awaited with interest by railway men, because it has been called to start a movement for a general reduction of freight rates throughout the country. It is the first concerted move in this direction of a national scope.

WATER CONDITIONS.

SAN FRANCISCO, May 4.—Chairman Dillman of the Water Committee appointed by Mayor Schmitz, reported this morning that there was daily being pumped to San Francisco 12,000,000 gallons of water. This is sufficient for all of the present necessities and for small fires. In a week this amount of water will be increased by 10,000,000 of gallons daily.

A Year of Blood.
The year 1903 will long be remembered in the home of E. N. Tackett, of Alliance, Ky., as a year of blood, which flowed so copiously from Mr. Tackett's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me to death's door when I began taking Dr. King's New Discovery for Consumption. With the astonishing result that after taking four bottles I was completely restored and as time has proven permanent cure. Guaranteed for Sore Throat, Coughs and Colds, at Good Bros. Broadway, corner 7th and Washington, corner 12th. Price 50c and \$1.00. Trial bottle free."

Not one in twenty are free from some little ailment caused by inaction of the liver. Use Carter's Little Liver Pills. The result will be a pleasant surprise. They give positive relief.

UNIVERSITY LOSES BY FIRE

BERKELEY, May 4.—J. L. Rowell, Librarian of the University of California, gave out the following statements as to the loss sustained by the library in the recent fire:

Two lost 1700 volumes by the burning of the Higgs-Judd building in San Francisco and perhaps 200 more volumes in the hands of students and instructors. The valuable art library in Mark Hopkins Institute of Art went up in flames, also a very valuable architectural set of books belonging to the Phoebe Hearst Architectural Library were burned in the Italian Bank building.

The project for a new library building for the University has received a serious set back. The generous provisions made in the bequest by Charles F. Doe consisted very largely of improved property in San Francisco.

RELIEF FUND.

SAN FRANCISCO, May 4.—The Relief Committee received \$77,000 additional Wednesday, making a total of \$3,637,000 on hand.

California cherries are being sold throughout the East for the relief of the sufferers and are bringing fabulous prices. From St. Paul and Philadelphia \$4000 was received from this source.

The citizens of Bisbee, Arizona, contributed \$2000 in greenbacks, which were handed to Mayor Schmitz this morning. This is not included in today's total.

ROOSEVELT WIRES TO THE ATHLETES.

ATHENS, May 4.—President Roosevelt has telegraphed to James E. Sullivan, manager of the American team at the Olympic games, as follows:

"Heartiest congratulations to you and the contestants. Enjoy them all right."
THEODORE ROOSEVELT.

WILL OBSERVE FUTURE SHOCKS

BERKELEY, May 4.—Two discarded seismographs are being repaired at the Astronomical Department of the University with the intention of setting them up in the sections of the city where the earthquake shocks are the most strongly felt. It was deemed necessary to record the light shocks which have been occurring from time to time in the town as they are not felt on the hill at the observatory.

CHINESE OBJECT.

SAN FRANCISCO, May 4.—The Chinese authorities and the leading Chinese merchants are restive under the proposed arbitrary location of Chinatown and prefer to be treated as the American merchants are treated. The leading merchants are threatening to remove from the city.

Abbe Ruef, chairman of the Committee on the Location of Chinatown, stated that there was one of these states that could be had by the Chinese, but that they apparently preferred to locate where they desired without restriction from the municipal authorities.

Chairman Ruef announced that he would have another conference with the Chinese officials today.

FOR EXECUTOR.

Petition for the appointment of Elias B. Shutt, as executor of the will of George Shutt of Fruitvale, who died April 7th of this year, has been filed. There is about \$5000 worth of property, half cash and the balance a house and lot on Liles avenue in Fruitvale.

Tine Falk, a young woman, whose mother took her with her to rooms in East Oakland, ran wildly out of the house at the first slight tremor of the earth and made so much ado generally that the owners of the house forbade them the rooms. A few days at the County Infirmary has shown that that is not a fit place for her, and an examination for insanity has been set before Judge Waste at 4 p. m. today.

Miss Falk and her mother are San Francisco sufferers by the earthquake.

SUMMER RESORTS

Besides, YOUR CREDIT IS GOOD if you have been with us before. References required from others for the asking. Free booklet for the asking. W. F. HOTCHKISS, Applegate, Cal.

MISCELLANEOUS.

France is Jealous of California Wines
and well she may be, for whenever a government test has been made during the past five years, California wines have always been in the lead. And of all California wines those from the Glenbrook vineyards are of the highest standard and most cordially recommended by the medical faculty.
